NOMINEE FOR THE 2021 NEBRASKA ANGUS PRODUCER OF THE YEAR

For more information about the annual Producer of the Year and to download the nomination form go to www.nebraskaangus.org. Click on NAA Events, then click the Nebraska Angus Producer of the Year link, the form can be downloaded from this page.

Purpose of the NAPOTY

The purpose of this award is to select the Nebraska Angus Association member who has contributed the most to the advancement of the Angus business & their community; to recognize that member for their efforts & work expended in the interest of the Angus breed; to demonstrate to the public the place of the member in their community; & to call attention to the qualifications of these members for positions of leadership in the breed and its organizations. It is not a requirement that nominees must have served as State Association President but the **nominee must be a current member of the Nebraska Angus Association.**

Each Angus producer in the state of Nebraska is invited to submit the name of one nominee, accompanied by a completed application form and supporting information. The NAPOTY will be selected by an anonymous selection committee comprised of current Nebraska Angus Association members, one from each district of the State Association. The previous year NAPOTY winner will serve as chair of the selection committee.

Suggested standards for the nominations may be based on the following guidelines:

1. Angus Spirit – (25%) high principles of integrity, adherence to the "Golden Rule", good ethics among other breeders and the public
2. Civic Activity – (15%) local, state, national level participation in civic service clubs, charitable activities, political work, fraternal & religious groups
3. Business Accomplishments – (20%) recognize good business conduct, service to buyers & sellers of Angus animals, advertising programs used & creative marketing
4. Local Area Activity – (15%) board offices & committee work, special assignments, educational work
5. State Association Activity – (20%) offices held & committee work, attendance & exhibiting at the State shows, director meetings & shows attended
6. National Association Activity (5%) national offices held, committee work, attendance at the Annual meeting, regional shows, etc.

A complete application should include:

1. Form available on www.nebraskaangus.org
(see above note for locating the form)
2. A letter of recommendation from the nominees peers, community or fellow producer.
3. Color or black & white photo of the nominee and/or their operation

DEADLINE: OCTOBER 31, 2021 – NO LATE APPLICATIONS WILL BE ACCEPTED
SUBMIT COMPLETED APPLICATIONS TO: MARGO LEHN, SEC/MGR,
NEBRASKA ANGUS ASSOCIATION; P.O. BOX 245 LONG PINE NE 69217

AM I FULL OF CRAP?

Calf scours are not inevitable. A strong prevention program is non-negotiable. Dependable scour prevention is essential for calf welfare, employee morale and business profitability. The immune system's response to vaccination is variable and unpredictable. That's why giving preformed antibodies instead of relying on a vaccine to stimulate antibody production is so important. I'm all for removing uncertainties. So yes, I stand by this product. (And no, I'm not.)

The Most Important Performance Trait Is Profit

Profit is generated not only in the sale ring but also through an economical and efficient cowherd.

With over 50 years of performance data and 98 years of breeding continuous cow families, Mike Sitz Angus is committed to raising moderate framed cattle that perform efficiently and predictably in the stringent conditions of the commercial industry.

Raised in an unpampered environment and maintained on a limited feed supply, under which most commercial cowherds must operate, you will find our bulls accustomed to reality.

Give us a call if you are looking for performance proven Coming-Two-Year-Old Bulls to add economic strength to your herd.

The cows have worked for us, our bulls can work for you.

Come and see for yourself.

ANGUS. ONLY ANGUS.

There's only one DNA profile created specifically for Angus cattle.

Angus GS™ is the new standard in genetic testing for Angus cattle. Created by Angus Genetics, the profile is purely Angus DNA. So it will have better predictability and deliver more power and accuracy than any previous generation genomic enhanced EPD, and at greater value. Visit angus.org/agl for the test that only Angus Genetics could create.

Has chasing EPD extremes left you short of your goal?

We don't do that here.
Our motto from the beginning:

In pursuit of excellence, where the only extreme we pursue is extremely well balanced.

We have collected carcass and feedlot data on our steers since 1985.

But more importantly to us, how are our customers doing?

One of our customers also buys bulls from other mainline breeders who use and promote elite carcass traits. Here is how we fared:

Our bull on 12 head: Avg carcass wt 780 marb. score 608 REA 12.33 cal. YG 3.38

Bull #1 on 10 head: Avg carcass wt 730 marb. score 560 REA 11.87 cal. YG 3.30

Bull # 2 on 6 head: Avg carcass wt 770 marb. score 565 REA 12.27 cal. YG 3.15

Bull # 3 on 9 head: Avg carcass wt 754 marb. score 595 REA 11.32 cal. YG 3.97

All sire on 2 head: Avg carcass wt 769 marb. score 527 REA 11.90 cal. YG 3.26

So come and see what doing things differently looks like:

and come enjoy the Angus show, sale, and vendors.
Will keep you posted for additional details!

2020 Producer of the Year

ED ANGUS - OPERATION STRIVES FOR EXCELLENCE

Ashby – This year's Producer of the Year, had small beginnings. Just over 30 years ago, Clint Hebbert and his brother Pat, made the decision to raise cattle in a joint venture on some leased land near Ashby, NE, which is located on the western edge of the Nebraska Sandhills. Clint and Suzy were married in 1991, at that time they had 12 head of commercial cross-bred cows and bred heifers. Their sons Ed and Joe joined them in the operation 1993 and 1996, respectively.

The Hebberts added their first registered Angus cows in 1993 when they purchased three females on Vance and Connie Uden's mature cow sale. They returned to TC Ranch again in 1998 and selected five more cows. In the 90's, females were also added from Hoff Scotch Cap & Bon View Angus in South Dakota. Additional females were selected from the Russell Angus dispersal, Minert-Simonson Angus and Marcy Cattle Co. in Nebraska. These registered cows served as the foundation of their herd. Over the next sixteen years, they kept only their top performing heifers as replacements and grew their herd to current numbers of 115 cows and bred heifers. In 2017 & 2019 they once again added genetics on the female side with the purchase of females from Baldrige Tiedeman Angus.

Along the way, they purchased bulls from the top end of Nebraska producer's sales such as Minert-Simonson Ranch, Vin-Mar Cattle Co, Kraye Angus and A & B Cattle. They frequently collect semen on their herd sires and A.I. to their herd bulls as often as they select semen from sires in bull stud lineups. They have also utilized Embryo Transfer in their operation, selecting some of their top producing females to flush, it is on a small scale basis, but this task has been scaled back this last year due to limited time available to successfully manage it.

Their goal is to produce broody, thick, deep ribbed females with lots of volume. Their operation is a spring calving herd, and they try to run every cow and heifer through the A.I. chute, beginning the first week in May and finish that A.I. program by June 1st if possible. Heifers are synchronized while cows are A.I.'d on natural heat the first 10 days of the breeding season and then synchronized in two groups.

The calf crop is not creep fed, they want the calf weaning weights to be a true reflection of the calves' own genetic potential, their dam's milking ability and what Mother Nature provides in the Sandhills forage. Steer calves are usually marketed in October and replacement heifers are sorted in the fall. Bulls are monitored on a feed test at the ranch, while heifers are grown on 2-3 lbs. of protein supplement/head/day. Heifer numbers are sorted again in January and later born heifers are sold then as replacements at sale barn auction.

In the early years, E D Angus bulls were marketed by private treaty. Then a bid-off procedure was added to the private treaty bull sale. In 2015, the sale became a production sale where bulls and replacement heifers were offered in a live auction. The sale is now annually held on the third Sunday in March. They celebrated their 20th sale this year.

The Hebberts have benefited from membership and involvement in the Nebraska Angus Association. They exhibited a pair of bred heifers in the 2005 Pen show, winning reserve champion pen but more significantly that pair of heifers topped the sale that day. They have participated in the annual tour, exhibited cattle at Husker Harvest Days and they try to attend the year end banquet annually. Suzy served two terms on the Association board as the West district director. Essentially, they feel the networking and contacts with members across the state, both at the Nebraska annual meeting and the National Angus Convention, have provided a base from which to fine tune and improve their own program.

Throughout the years, E D Angus was basically a four-person operation. Clint and Suzy's sons Ed and Joe played an integral part in the workload. As they left home, went to school, and entered the workforce in their chosen fields, it is now basically back to a "Mom and Pop" management style.

Ed and his wife Kate live in Clay Center, NE where he is employed with UNL Forages department at the Meat Animal Research Center. Kate's immigration process from Canada is nearly finished and she is seeking local employment. Joe and his wife Makala live at Stuart, NE, and farm with her family. Makala is employed as a Community Development Specialist with the Central Nebraska Economic Development District. The boys and their wives periodically make it home to help with major events such as the sale or spring branding.

Clint and Suzy don't plan on expanding their cattle numbers much, preferring to concentrate on quality, keeping in mind... *"If you raise top-quality cows, exceptional bulls and heifers will be born."*

JOIN THE NEBRASKA ANGUS ASSOCIATION

*"promoting our state's great Angus breeders,
raising the best steak experience in the world"*

Membership form found on page 100

NEBRASKA ANGUS ASSOCIATION

We invite you to join the Nebraska Angus Association, and become part of the largest single beef breed organization in the state. Our Association's purpose is to promote the Angus breed but more importantly all of our top-notch NEBRASKA breeders.

Association membership benefits include:

- Publication in the annual Nebraska Angus Directory & on the Nebraska Angus Association website*
- If you sign up for our website membership link option, your website listing will link directly from our website to your page (there is an additional \$25 for this option, recently reduced from \$50)*
- A free subscription to the popular Nebraska Angus News magazine*
- Publication of your sale date on our sale calendar in the Nebraska Angus News and on our website*
- Participation in Association activities including Husker Harvest Days, Annual Tour (when it's in your area), and the Nebraska Cattlemen's Classic Show and Sale (our state show and sale)*
- Reduced advertising rates; receive production sale catalog printing discounts & other advertising item discounts from our printer*
- Notification when buyers are looking for all classes of Registered Cattle*
- New members are entered into a drawing for a half page black & white ad in our directory, a \$150 value (the winner has the option to upgrade to a full page ad and color)*
