**On the Cover:**  
*"It's a Cold One"*

Here's to a New Year and new beginnings! 2020 was full of plenty of challenges and changes, but we worked through them and are now ready to see what 2021 brings.

For the Association a New Year brings a year full of events, sales, meetings, and more. This magazine publication is the first of our annual four news issues plus the annual directory. This issue is an exciting one and full of lots of information! Advertisements for annual bull and female sales, and private treaty can be found in this issue along with news from our Annual Meeting and Banquet, Queen Contest, Junior Winter Show, National Angus Convention and more. For those advertising I like to point out the Nebraska Angus Association provides consecutive issue discounts. These consecutive issue discounts can range from 5-20%. Our magazine issue also gets posted on our website at [www.nebraskaangus.org](http://www.nebraskaangus.org) under the news tab. This allows our magazine to reach more readers. For more information, please contact me. Thank you to all our members who partake in these issues!

To start off the year the first Angus event will be the Cattlemen's Congress in Oklahoma City, Oklahoma. This show as most you probably know is going to replace the canceled National Western Stock Show that is held annually in Denver. The committee for the Cattlemen's Congress has brought together the best minds in the industry and partnered with breed associations in order to provide an opportunity for breeders to showcase their hard work. From world class shows, incredible facilities, room for a stunning trade show, and ample event centers for meetings and sales, Oklahoma City was an obvious choice to host this grand event. The team from the Oklahoma Youth Expo will be managing the event. This team brings years of experience and expertise in the stock show industry. For Angus arrival/stalling day is set for January 2nd. Bases loaded sale is scheduled for the evening of January 6th and on January 7th the Junior Angus Breeding Heifer show will take place followed by the Denim & Diamonds Sale. Then on January 8th the Super ROV Angus Bull Show will occur followed by the Angus Bull Sale and Angus Foundation Female Sale. There will be "A Night at Remington Park" Angus sale following the Angus Foundation Female Sale. January 9th will include the Super ROV Angus Female Show and rounding out the Angus schedule will be the Angus Bull-Heifer Pen Show on January 10th. For more information on the Cattlemen's Congress, you can go to [www.cattlemenscongress.com](http://www.cattlemenscongress.com).

For those of you that may not have heard yet the Nebraskan Livestock Show that was to be held in Grand Island, Nebraska this year has been cancelled. With health regulations still set-in place the committee for the show was forced to cancel.

I hope this New Year finds you all in good health, and taking part in the business you all love, which is the Angus business. May 2021 be full of blessings and joy.

Sincerely,

Margo Lehn

# PRESIDENT SPEAKS

By: Matt Dolezal, NAA President

## Fellow Angus Breeders,

First, I would like to start by thanking you all for giving me the opportunity to serve as your President, it is a great honor and very humbling to join the ranks of the many astute Angus breeders who have served before me. My love for Angus cattle runs deep and there are no better Angus cattle anywhere in the world than right here in the great state of Nebraska. I would also like to thank Margo and my fellow board members for all the hard work they do. It had been a strange and disheartening year last year with the pandemic going on, but we were still able to pull together and have a great Angus Tour and a wonderful banquet and you all deserve a big thanks for being able to make that happen. Also, congratulations to the winners of the Producer of The Year award E.D. Angus. Clint and Suzy have worked very hard for a lot of years and couldn't deserve it more.

As I write this letter, the holiday season has come and gone and we are starting a new year. Last year presented us with a number of challenges, many of which none of us could ever imagine. New challenges are never easy and are something we are used to in our industry, but there is nobody more resilient or capable of taking on these challenges than a Nebraska rancher. The ability to overcome obstacles and take on adversity is something our members know well and one of the main reasons our breed and its breeders have risen to such prominence in the beef industry. With a new year and a new spring approaching I want to congratulate all who have already had their sales and say good luck to those who have sales coming up. Spring time is a time of validation for all of our members with the success of our sales, and the success of our breeding decisions. With calving season, it truly is a time to look forward to and have a reason to keep our heads held high.

We can look forward to the 2021 National Junior Angus Show coming to Grand Island in July, and I am also

very excited to announce that the 2021 Nebraska Angus Tour will be coming out to western Nebraska this year. I encourage you all to try to attend these events to see all that the Angus breed and its breeders have to offer and I look forward to visiting with many of you at these events as I represent our Association. Nebraska has some of the greatest facilities in the nation, but it takes a tremendous amount of work to host these events and if anyone would be interested in volunteering or chipping in we would love to have your help.

In closing I would like to wish you all a successful spring and a Happy New Year! I would also like to give a big thanks to Danny Poss for doing a great job representing our Association as President over the past year and I look forward to working with everyone for another year. If I, or any of the other board members can ever be of service to you feel free to contact me or any of the other board members at any time. We are open to any new ideas you might have to help strengthen and advance our Association. As an organization of Angus breeders, we have a lot to offer and I look forward to doing my part to spread the word. Thank you again for giving me this opportunity and without you and your hard work as members we wouldn't exist as an Association. Good luck during calving season and may we all have a blessed new year!

God bless,

Matt Dolezal

Photos must be high resolution (300 dpi or better) and at least 8 inches wide.*

By: Jerry Connealy *AAA Director*

*Dear Nebraska Angus Friends,*

Here's looking to hope on the horizon for a good 2021 for us all!

There is a new program that has been instituted as part of the long-standing AHIR program. It is called Inventory Reporting. It was unveiled at the November Annual Meeting for those who were there in person or who viewed online.

Inventory Reporting may be a change in mindset for folks regarding traditional reporting methods. Rather than submitting data on individual calves, producers are called upon to identify and report their active cowherd and then submit data based on that cowherd and its progeny.

The primary goal of Inventory Based Reporting is to assist AHIR in capturing even more data for our breed to continue to improve the accuracy of our EPDs, \$ Values, and Genetic Merit Scores. The secondary benefit to producers is that they will have an even better handle on their cowherd – its numbers and production.

Here is an overview of Inventory Reporting Benefits:

- 1) It is easy to participate
- 2) It captures "hard to reach" traits for the Association
- 3) All cows are accounted for, not just those who produced offspring
- 4) There are a significant number of disposal codes/reasons designations for producers to use
- 5) Comprehensive meaningful data = unbiased data results
- 6) The data will help to characterize maternal traits – health, fertility, and longevity

The staff at AAA has spent an enormous amount of time building a web-based platform for producers to use for enrollment that makes the initial herd sign-up as easy as possible.

A webinar by Jerry Cassady and Chris Stallo at the Association office was broadcast on December 1st that outlined the program in greater depth and provides a walk-through of the on-line enrollment platform. I highly recommend watching this webinar for a better idea of what is entailed. It can be found through a YouTube search for Angus TV, and the episode title is "Investing in Inventory."

For those of you who are already enrolled in Maternal Plus, this Inventory Reporting program does not replace that. Maternal Plus is simply the highest level of herd-based reporting, and this new Inventory Reporting program can be viewed as a stepping stone to that higher designation, if so desired.

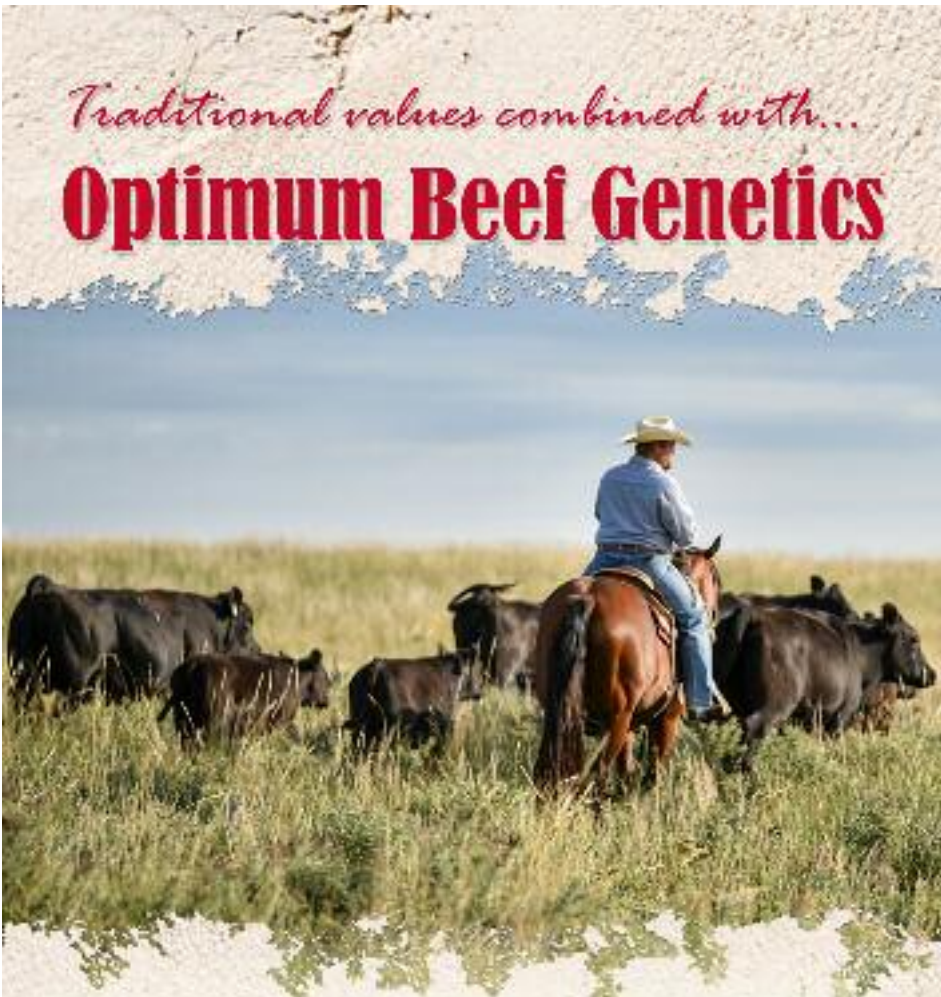

All the best to everyone, and if you ever have any questions, feel free to contact me.

Sincerely,

Jerry Connealy • AAA Director

# NE AUXILIARY PRESIDENT SPEAKS

By: Heather Smith, NE Angus Aux President

## *Hello, fellow Angus Enthusiasts!*

It is with great honor that I am serving as President of the Nebraska Angus Auxiliary. This past year being what it has been, I sincerely hope that this finds all of you healthy.

December is usually a month that starts off for our family with the Annual Winter Junior Show, and the Annual Nebraska Angus Banquet. It is an event that our family has participated in for the past 12 years. We have only missed twice, once for our son's military graduation, and once when Mother Nature thought a blizzard would be more fun. So, with all things "2020", and all the things that have been cancelled it was absolutely refreshing to be able attend the week-ends activities and to see our Angus family. It was good for the soul to have the opportunity to visit, count our blessings, and have great conversation over a beautiful meal.

While the Auxiliary had to make the difficult decision to not hold our annual meeting and elections, we fully plan to proceed as soon as we can to re-schedule. Committee reformation will also occur at the next meeting. We encourage and welcome anyone who would like to join us to be part of these committees. Some of which are, fundraising, queen, scholarships, and by-laws. Regarding fundraising, we did not have the Silent Auction at the banquet, but that is planned for the next one. One fundraising idea that we have been discussing is a cookbook with recipes

submitted from our members. We want to not only have it as a cookbook, but create it in such a way, that it serves as a history book for the Nebraska Angus members. We will be looking for recipes, and history, so be thinking of those favorites from your families.

On another positive note, one event that was able to continue was the Nebraska Angus Queen contest. The Nebraska Angus Association has done a tremendous job of bringing the contest to a high level of prestige. Kourtney Nelson, who is serving as our Queen Contest Chair, put together a truly magical evening for the candidates. The Auxiliary was honored to help and be a part of moving that contest forward and making it a special evening for the young ladies involved.

I am sure that it goes without saying that we are all praying and hoping for a better year this year. If I have learned anything about being in the cattle business it is the ability to adapt to do more with less, and know just how tough cattlemen and cattlemen can be.

May 2021 be filled with blessings to you and your family.

Sincerely,

Heather Smith •  
Neb Angus Auxiliary President

## Hello Angus Friends!

I hope everyone is staying safe and healthy enough to enjoy the holidays with loved ones! Our Junior Organization was fortunate enough to gather for our annual winter show from December 4-6th. We started with the Nebraska Angus Association Queen Contest organized by Kourtney Tarnick. This consisted of a dinner, speeches and interviews for the participants. TaraLee Hudson was crowned the new Nebraska Angus Association Queen! Saturday morning juniors started to arrive and check-in. Following check-in juniors gathered for a meeting and a fun activity where we created promo videos for the upcoming National Junior Angus Show in Grand Island, Nebraska. Saturday evening at the Nebraska Angus Association annual banquet winners were announced for the heifer raffle scholarship. Congratulations to Reagan Skow, Kacey Dethlefs, Allison Rippe, and Mathias Shulte! I would also like to thank anyone that donated or purchased semen off of the junior's annual semen auction, your support is greatly appreciated! While some of our junior members enjoyed the banquet, others were able to enjoy some time together outside of the show ring with lots of pizza and swimming.

We were extremely pleased with the high number of entries for this year's winter show with over 50 head showing! A huge thanks to Chris Styles for evaluating the cattle along with Levi Landers and Joe Epperly for keeping things running smoothly!

Congratulations to all of our exhibitors! I would also like to thank everyone that helped with setting up and tearing down the show. We appreciate all your hard work! Our next meeting will be held in Broken Bow on June 4-6 in conjunction with the 2021 State Angus Show. I hope to see you all there!

# NAA PRESIDENTIAL SPOTLIGHT

## DANNY POSS

The 2020 President Danny Poss has been heavily involved in the Nebraska Angus Association and the American Angus Association for several years. His expertise and work ethic were a great attribute to our Nebraska Angus Association. Danny was raised on a commercial cow/calf operation in Scotia, Nebraska. He was active in 4H showing at the county fair, state fair, and at AKSARBEN. He bought his first registered heifer at Carl Dethlefs and Sons Production Sale in 1986. From there he gradually expanded by buying females at other production sales and AI-ing his Angus females to leading AI Sires.

Poss Angus in Scotia, Nebraska, is home to Danny and his wife Kristi and their four children Nolan, Nathan, Neleigh, and Natalie. Each family member contributes to the operation and without their entire family

working together they would not be able to succeed. Nolan, Danny's oldest son, is in charge of planting the crops and taking care of the computer work that comes with registering a herd. Being a very social individual, you can find Nolan making new friends, and taking in all the experiences he can in the Angus industry. Nathan, the next sibling, is a junior at Fort Hays State University in Hays, Kansas. He is a member of the Fort Hays Rodeo team and is a major part of our operation in helping with all ranch duties and being there when Danny needs an extra hand. Nathan has been able to spend a lot of time at the ranch over the last year, due to COVID-19 and Danny has been very grateful for his help. Neleigh the first daughter is a junior at Central Valley High School and is very active in volleyball, basketball, track, dance, and National Honor Society. And the last of the Poss children Natalie, is a freshman at

Central Valley High School and she too is busy with volleyball, basketball, track, dance and is a member of the National Honor Society. Both girls are great help on the ranch and Danny and Kristi are both super blessed to have them outside a little more than usual with COVID-19 restrictions. All of the kids have their own registered cows and are all members of the American Angus Association. Danny likes taking his family camping, boating, and visiting other Angus operations around the United States.

When asked what is the most rewarding part about being a member of our Association as an officer, Danny replied

with, "Meeting and networking with other producers throughout the state and representing for all of them". He really described his passion of representing the Angus breed in Nebraska. His advice to all members and cattle producers is to be active at the local and state level. Get involved with the Nebraska Angus Association and the American Angus Association, whether it's being a delegate, board member, or attending Angus shows or events. Without people getting involved our associations and events would not be able to move forward and would not allow for our future generations to experience what we have. Danny stated that one of his future goals for the Nebraska Angus Association is to make sure the Angus Tour continues to be active each year and that people work together to make it an event that people enjoy going to. This event is a big event for our state and brings everyone together to see great Angus genetics and meet new people in the industry.

# NEBRASKA PRODUCER OF THE YEAR

## ED ANGUS - OPERATION STRIVES FOR EXCELLENCE

Ashby –This year’s Producer of the Year, had small beginnings. Just over 30 years ago, Clint Hebbert and his brother Pat, made the decision to raise cattle in a joint venture on some leased land near Ashby, NE, which is located on the western edge of the Nebraska Sandhills. Clint and Suzy were married in 1991, at that time they had 12 head of commercial cross-bred cows and bred heifers. Their sons Ed and Joe joined them in the operation 1993 and 1996, respectively.

The Hebberts added their first registered Angus cows in 1993 when they purchased three females on Vance and Connie Uden’s mature cow sale. They returned to TC Ranch again in 1998 and selected five more cows. In the 90’s, females were also added from Hoff Scotch Cap & Bon View Angus in South Dakota. Additional females were selected from the Russell Angus dispersal, Minert-Simonson Angus and Marcy Cattle Co. in Nebraska. These registered cows served as the foundation of their herd. Over the next sixteen years, they kept only their top performing heifers as replacements and grew their herd to current numbers of 115 cows and bred heifers. In 2017 & 2019 they once again added genetics on the female side with the purchase of females from Baldrige Tiedeman Angus.

Clint and the heifers - Heifer #54, has learned that she gets "extra" cake if she takes it straight from the Boss Man.

Along the way, they purchased bulls from the top end of Nebraska producer’s sales such as Minert-Simonson Ranch, Vin-Mar Cattle Co, Kraye Angus and A & B Cattle. They frequently collect semen on their herd sires and A.I. to their herd bulls as often as they select semen from sires in bull stud lineups. They have also utilized Embryo Transfer in their operation, selecting some of their top producing females to flush, it is on a small scale basis, but this task has been scaled back this last year due to limited time available to successfully manage it.

ED Angus • 2020 Producer of the Year

Their goal is to produce broody, thick, deep ribbed females with lots of volume. Their operation is a spring calving herd, and they try to run every cow and heifer through the A.I. chute, beginning the first week in May and finish that A.I. program by June 1st if possible. Heifers are synchronized while cows are A.I.’d on natural heat the first 10 days of the breeding season and then synchronized in two groups.

The calf crop is not creep fed, they want the calf weaning weights to be a true reflection of the calves’ own genetic potential, their dam’s milking ability and what Mother Nature provides in the Sandhills forage. Steer calves are usually marketed in October and replacement heifers are sorted in the fall. Bulls are monitored on a feed test at the ranch, while heifers are grown on 2-3 lbs. of protein supplement/head/day. Heifer numbers are sorted again in January and later born heifers are sold then as replacements at sale barn auction.

In the early years, E D Angus bulls were marketed by private treaty. Then a bid-off procedure was added to the private treaty bull sale. In 2015, the sale became a production sale where bulls and replacement heifers were offered in a live auction. The sale is now annually held on the third Sunday in March. They celebrated their 20th sale this year.

The Hebberts have benefited from membership and involvement in the Nebraska Angus Association. They exhibited a pair of bred heifers in the 2005 Pen show, winning reserve champion pen but more significantly that pair of heifers topped the sale that day. They have participated in the annual tour, exhibited cattle at Husker Harvest Days and they try to attend the year end banquet annually. Suzy served two terms on the Association board as the West district director. Essentially, they feel the networking and contacts with members across the state,

both at the Nebraska annual meeting and the National Angus Convention, have provided a base from which to fine tune and improve their own program.

Throughout the years, E D Angus was basically a four-person operation. Clint and Suzy’s sons Ed and Joe played an integral part in the workload. As they left home, went to school, and entered the workforce in their chosen fields, it is now basically back to a “Mom and Pop” management style.

Ed and his wife Kate live in Clay Center, NE where he is employed with UNL Forages department at the Meat Animal Research Center. Kate’s immigration process from Canada is nearly finished and she is seeking local employment. Joe and his wife Makala live at Stuart, NE, and farm with her family. Makala is employed as a Community Development Specialist with the Central Nebraska Economic Development District. The boys and their wives periodically make it home to help with major events such as the sale or spring branding.

Clint and Suzy don’t plan on expanding their cattle numbers much, preferring to concentrate on quality, keeping in mind... *“If you raise top-quality cows, exceptional bulls and heifers will be born.”*

Our ET twins, sired by SAV President and out of our donor E D Erica 910. Each day as we gather them up to cake, these two girls are frequently found standing side by side. They are pretty evenly matched set!! We are blessed that we received two of them.

# NE ANGUS AND MISS AMERICAN ANGUS QUEEN

## NEBRASKA ANGUS QUEEN COMPETITION

On December 4th, 2020, the Nebraska Angus Auxiliary and the Nebraska Angus Association hosted a newly restructured Nebraska Angus Queen contest at the Younes Convention Center in Kearney, Nebraska. The Queen contest, which in the past had been held during the Nebraska Junior Angus State Show, was moved to the weekend in correlation to the Nebraska Angus Association Annual Meeting & Banquet. This change was made to help improve our Queen competition and shape it closer to what an American Angus Queen competition would be. This change allowed for contestants to gain more acknowledgement and be recognized by the entire membership. During the event, the evening consisted of an amazing prime rib meal and beautiful decorations to help make the event a very memorable one. The event was headed by our Nebraska Angus Auxiliary Queen Chairwoman Kourtney Tarnick with the help of Nebraska Angus Secretary/Manager Margo Lehn.

This year consisted of two well rounded contestants, TaraLee Hudson from Hebron, Nebraska and Rachel Smith from Osceola, Nebraska. During the contest the contestants took part in a speech, interview, and roundtable discussions in front of three judges. Prior to the contest a queen application was completed and given to the judges. Judges for the event were Andrew Dorn, Becky Friend, and Sydney Robinson. Each contestant brought phenomenal skills and impressed the judges with their great Angus experience and knowledge. In conclusion to the evening the new 2021 Nebraska Angus Queen was crowned and the

winner was Ms. TaraLee Hudson. As queen TaraLee was awarded a queen belt buckle, travel bag, crown, sash, and a \$1,000 travel award.

The Nebraska Angus Auxiliary and the Nebraska Angus Association would like to thank our sponsors that helped make this event an unforgettable one. Thank you to Aliesha Meusch, Dethlefs Angus, Kourtney Tarnick, and Divas Floral Shop and Boutique for your generous donations! If you would like to meet TaraLee or have her come to your annual production sale please reach out to the Nebraska Angus Association office. We are proud to have our TaraLee on board as our 2021 Nebraska Angus Queen!

## *Ellie Kidwell Crowned 2021*

### *Miss American Angus*

*Ohio native claims  
Miss American Angus honors.*

After two days of interviews, speeches and a test, Ellie Kidwell was crowned the 2021 Miss American Angus on Nov. 8 during the 137th Angus Annual Meeting held in Kansas City, Missouri. The upcoming year may have some changes due to COVID-19, yet Kidwell says that being crowned was a life changing moment for her.

"I don't have the background or generations behind me like others do, but when I was crowned I realized I could do this," Kidwell said. "I am excited to be here to make my own legacy."

Kidwell grew up in Walhonding, Ohio, where she purchased her first Angus heifer from her grandpa in 2010. Fast forward to 2016 when she bought her first show heifer and attended the Eastern Regional Angus Show, it was the first event which sparked

Kidwell's passion for the National Junior Angus Association. After attending her first regional show, Kidwell decided to take advantage of all opportunities within the Association.

That same passion led Kidwell all the way to earning the title of Miss American Angus where she will spend a year attending shows and advocating for the Angus breed and the cattle industry. Now Kidwell can be spotted traveling in her red coat at shows and events across the country.

"I know in this role, I will get to talk to a lot of people because I am going to stick out in a crowd," Kidwell said. "I'm eager to make industry connections, meet with the leaders of this breed, and interact with junior members as I have goals of being on the junior board one day."

Aside from her role as the 2021 Miss American Angus, Kidwell is also a student at Kansas State University where she is working toward a bachelor's degree in animal sciences and industry with a business minor. Post-graduation, she plans on attending veterinary school to specialize as a large animal chiropractor and stay involved in the cattle operation she started with her mom and sister.

"It's important for me to have a job where I can still be involved in the industry," she said. "Beyond that, I always want to have Angus cattle and work to grow my herd."

It is evident that Kidwell is passionate about the breed and excited about her upcoming year as the 2021 Miss American Angus. For more information about this American Angus Auxiliary-sponsored contest, visit [www.angusauxiliary.com](http://www.angusauxiliary.com).

- Written by Whitney Whitaker, Angus Communications

# 2020 ANNUAL MEETING RECAP

**A** *NUAL MEETING*  
The 2020 Nebraska Angus Association Meeting and Banquet was held in Kearney, Nebraska at the Holiday Inn/Younes Convention Center on December 5th, 2020. The afternoon events included two educational speakers and the annual meeting. The first speaker Joel Cowley, President of Angus Genetics Incorporated presented his presentation titled "Angus Genetics, Inc. Update". He discussed beef values (\$B), (\$M), and (\$C) and went into depth about the genetic makeup of qualitative traits and how all traits have not yet been discovered for genomic testing. He informed that more genomic testing is needed and is essential for the business of the Angus breed. Following him was Paul Dysktra from Certified Angus Beef. Paul works closely

with ranchers and feed yard managers to help them target the Certified Angus Beef brand. He discussed his presentation "Updates to the CAB Market". During his lecture he gave producers an idea of where the Certified Angus Beef market is and new ideas to help promote the brand.

Rounding out the day was the evening social and banquet. A delicious steak dinner was served for the evening with several Nebraska Angus announcements including the 2021 Nebraska Angus Queen winner: TaraLee Hudson, recognition of the 2020 Producer of the Year: E.D. Angus, and the acknowledgement of the heifer raffle scholarship winners: 1st place- Reagen Skow, 2nd place- Kacey Dethlefs, 3rd place- Allison Rippe, and 4th place- Mathias Schulte. Also speaking during the

event was Kyra Meyer the Nebraska Junior Angus Association President, Heather Smith the incoming Nebraska Angus Auxiliary President, and Reagan Skow a National Junior Angus Association Membership Director. A directory page auction and junior semen auction also concluded. We want to thank everyone who participated in the 2020 Annual Meeting and Banquet and we look forward to next year's event!

*Annual Banquet evening.*

*Joel Cowley, President of Angus Genetics Inc. doing his presentation during the Annual Meeting.*

*Matt Lowery auctioning during the junior semen auction.*

# HEIFER RAFFLE SCHOLARSHIP WINNERS

## 1st - Reagan Skow Palisade, NE

**M**y name is Reagan Skow and my family owns and operates Bear Mountain Angus Ranch in Palisade, Nebraska. I am currently a Junior at Oklahoma State University where I am majoring in Agricultural Communications with a minor in Animal Science.

I have been actively a part of the Nebraska Junior Angus Association and the National Junior Angus Association since 2010; and have not missed a National Junior Angus Show since! Some highlights throughout my junior career include winning Reserve Grand Champion Bred and Owned Steer at the 2018 National Junior Angus Show, running for Miss American Angus and being elected to the National Junior Angus Association Board of Directors; where I am currently the Membership Director.

As for my future, I hope to work in the communications field part of the beef industry.

## 2nd - Kasey Dethlefs Ravenna, NE

**I** am a fourth generation Angus producer of Dethlefs Angus Ranch which was started by my grandpa, Kenneth Dutch Dethlefs and his dad. Angus is in my

blood. Growing up, I was always in the barn with my older sisters and my dad working with our cattle. I got to experience the life of being an Angus producer even before I could walk. Soon enough, my cattle became my closest friends. I was finally able to show at my first National Junior Angus Show in 2013. Following in my sisters' footsteps, I attended numerous leadership conferences and made connections on a national level in the Angus industry. I continue to promote my cattle and Dethlefs Angus Ranch through our bull sale and the Nebraska Cattlemen's Classic. My cattle also allowed me to prosper in FFA by becoming my SAE project. Angus has shaped me into who I am today and has taught me what it is like to live the dream. In the future, I plan to keep that dream alive by pursuing my dream career of becoming a medical researcher while still raising my own herd of registered Angus cattle.

## 3rd - Allison Rippe Indianola, NE

**I** am Allison Rippe and I am 18 years old. I am a senior at Southwest Public Schools in Bartley, Nebraska. I participate in FFA, FBLA, National Honor Society, volleyball, and speech team through the school. I have also been actively involved in 4-H for 10 years, showing cattle and horses, as well as lots of other projects. My family owns 70 head of Angus and Sim-Angus cattle, several of which have been shown as 4-H animals. I enjoy breaking and showing my own calves from our personal herd and it's exciting to think about where our herd started and where it is now.

Both of my parents have worked in the beef industry their entire lives. I have grown up listening to the newest synchronization protocols, the latest sire EPDs, and lots of other beef industry conversations! I believe this environment

is what sparked my interest in science. The constant exposure to hands-on livestock production has led me to develop a passion for anatomy and biology and a desire to pursue a career in human medicine. Having roots in animal production, I believe I have a tremendous opportunity to advocate for agriculture with the more urban population that I will be interacting with through the medical field. Giving back to the Angus Association, and the beef industry, in general, will always be an important priority in my life. I am greatly appreciative to include myself in the business and hope to continue the legacy in the future with my own herd. I would like to thank the Nebraska Angus Association and its members for the generous scholarship I received.

## 4th - Mathias Schulte Kearney, NE

**M**athias is currently a senior at UNL, majoring in biochemistry. While at UNL, Mathias has worked in the corn genetics lab. Upon graduation, Mathias wants to take a year off and work in a lab environment furthering his skills and pursue other genetic experiences. Mathias then wants to apply for graduate school in genetics. He continues to help on the family farm, helping make choices in our breeding program, breaking and showing Angus cattle, and helping his younger nieces and nephews by teaching them the valuable lessons, and responsibilities of showing the Angus breed.

# AM I FULL OF CRAP?

Calf scours are not inevitable. A strong prevention program is non-negotiable. Dependable scour prevention is essential for calf welfare, employee morale and business profitability. The immune system's response to vaccination is variable and unpredictable. That's why giving preformed antibodies instead of relying on a vaccine to stimulate antibody production is so important. I'm all for removing uncertainties. So yes, I stand by this product. (And no, I'm not.)

# ANGUS. ONLY ANGUS.

There's only one DNA profile created specifically for Angus cattle.

Angus GS™ is the new standard in genetic testing for Angus cattle. Created by Angus Genetics, the profile is purely Angus DNA. So it will have better predictability and deliver more power and accuracy than any previous generation genomic enhanced EPD, and at greater value. Visit [angus.org/agi](http://angus.org/agi) for the test that only Angus Genetics could create.

# OUR ANGUS FAMILY OBITUARY

## MAX HOFFMEISTER

Max was into life full time and for the long run. He was born on September 29, 1927 to Isabel (Bennison) and Max Hoffmeister at Imperial, Nebraska, the oldest of three, growing up with sisters Mary (Hillberry) and Ruth (Piva). He attended grade and high school in Imperial, graduating from Chase County High School in 1946. While in high school, he was active in many school activities as well as football and basketball.

He joined the service in 1946, taking basic training at Fort Leonard Wood, Missouri. He served in the U.S. Army Ordinance Corps, rising to the rank of Tech Fourth Class (E4) in 2 years. He was a soldier in the American Occupational Forces in Japan. The boat that he was on to take home from San Francisco to Japan had to turn back before they left the harbor because it was taking on water, twice. While underway, he noticed there were very few lifeboats for a lot of people. He never cared to go out on the water after that. His troop transport ship docked at Honolulu Harbor, but he did not get to go ashore other than standing guard at the gangplank. His boat stopped at Okinawa and the soldiers on board had to march around the island. It kept them out of mischief. While marching, he saw no standing tree or structure that was not destroyed. Upon arriving in occupied Japan, he was transported through Hiroshima, which he described as a wasteland, and looked just like the films. He served at Nagasaki, the second bomb site. While in Japan he was in a motor pool, often handling the paperwork. Whoever needed to check out a vehicle usually was judged by need by what was on their shoulder or the top or on the side. He once helped unload a supply boat in Incheon Harbor. He

never understood how America landed there in the night in the Korean War a few years later. In the service he acquired a lot of mechanical training. His trust in mechanical war was gauged by this often said phrase "expect a 50% failure rate at the point of attack." He never complained about taxes after serving, seeing how taxes helped improve bad situations. He hated the devastation that was visited upon the country of Japan, experiencing great empathy for their people. One of the stories he told his children was that he could get his boots polished for the metal pop bottle caps, and that the Japanese people worked hard for very little. After serving, he was active in the Veterans of Foreign Wars and the American Legion.

Max became engaged to Gladys Bussell at the Western Stock Show in Denver, Colorado on his way home from Japan. They married August 17, 1948 at the Methodist Church in Imperial, Nebraska.

Max managed the family registered purebred Angus herd, one of the oldest herds in Nebraska, lasting over 97 consecutive years, first founded by his grandfather, Dr. Fred Hoffmeister. He and his father showed cattle many years at the Western Stock Show and took state champion bull at Ak-Sar-Ben. He was instrumental in creating the Southwestern Nebraska Angus Association, which helped the smaller ranchers to have a way to sell their animals. He was that association's president and sales manager for more than 25 years. He also was sales manager for several other Registered Angus Association sanctioned sales. He and Gladys attended the National Angus Association in Chicago, Illinois where he was voting delegate for Nebraska in 1962. At the Chase County Fair, he was active in supporting the Angus breed and helping with overall cattle husbandry.

Max was active in many civic activities. He was in Jaycees, a community improvement organization, and was elected to president in 1960. From that he became active in Boy Scouts of America for over 20 years helping many young men in that organization. He was active planning meetings, camping trips, outings, and other activities, helping those boys to become better citizens. While doing these activities, he took classes to

improve himself to better serve the community. He also served on the Methodist Board and the Imperial School Board.

No one would question that he wasn't a true Democrat. He always let them know.

Max was a great caretaker of animals and the land. He appreciated what God gave us. He helped people who needed help, often kids with their calves during showings. He believed in giving people a second chance. He worked hard to help the animals under his care. He had a blind calf, Pet, that he guided by placing his hand on the backbone above the hips. He was a good steward to his land, following practices that preserved and improved the land that he owned. He lived by the Boy Scout motto of always leaving a place better than you found it.

Max passed away on Friday afternoon, November 13, 2020 at the Wauneta Care and therapy Center in Wauneta, Nebraska. He was 93 years of age.

Max was predeceased by his parents, Max and Isabel (Bennison) Hoffmeister; and his father and mother-in-law, Henry Milton & Lorena (Harmon) Bussell; his sisters and brothers-in-law, Mary (Hoffmeister) and Al Hillberry and Ruth (Hoffmeister) and Louis Piva; his brothers-in-law and wife, by marriage to Gladys, Calvin Bussell and Olan & Lois (Beard) Bussell.

Max is survived by Gladys (Bussell) Hoffmeister, his wife of 72 years; his daughters Bonita Hoffmeister of Atlanta, Georgia and LaDene Culver and her husband, Ron, of Laramie, Wyoming; his sons, Frederick (Fred) Hoffmeister and his significant other Mary Ann Eaglin of Imperial, Nebraska and Andrew (Andy) Hoffmeister and his wife Nancy Freburg of Kearney, Nebraska. He is also survived by eight granddaughters and eight great-grandchildren.

In all respects, he was a good man, a loving husband, and a great father.

No visitation will be scheduled. Max's wishes were for cremation.

Memorials have been suggested to the Imperial VFW Flag Fund, the United Methodist Church of Imperial, or the Wauneta Care Center & Therapy Center.

Services are pending at this time and Liewer Funeral Homes are in charge of the arrangements.

## Nebraska Natives Claim Grand Prize Giveaways at 137th Angus Annual Meeting

While the event looked different in landscape, the giveaways exceeded expectations.

American Angus Association® members and Angus enthusiasts who registered to attend the 137th Angus Annual Meeting in Kansas City or online were entered to win one of two incredible grand prize giveaways. The winners were announced to attendees on Nov. 9 at the 137th Annual Meeting. Registrants were entered to win a Priefert and Tru-Test by Datamars complete cattle handling system and the versatile John Deere XUV835M Gator™ Crossover Utility Vehicle to enhance their operations.

Kelly Johnstone, Albion, Neb., won the Priefert Rodeo and Ranch Equipment and Tru-Test by Datamars cattle handling system valued at \$7,247, Nov. 9 at the 2020 137th Annual Meeting in Kansas City, Mo. The complete cattle handling system will allow producers to handle their livestock safely and efficiently and make informed management decisions down the road. Photo by Karen Hiltbrand, American Angus Association.

Designed to alleviate stress for cattle and the producer, the Priefert Rodeo and Ranch Equipment Model S04 Squeeze Chute is their No. 1 selling chute of all time. The S04 Squeeze Chute helps take the “work” out of working cattle and is designed to be easy on the cow, and easy on the operator. The prize also included a Tru-Test by Datamars S3 weigh system that includes on S3 indicator and one set of MP600 load bars. The generous sponsorship package will allow producers to handle their livestock safely and efficiently and

Bill Rishel, North Platte, Neb., right, won the John Deere XUV835M Gator™ Crossover Utility Vehicle valued at \$16,569, Nov. 9 at the 2020 137th Annual Meeting in Kansas City, Mo. The utility vehicle features a three-person cockpit, power steering, front and rear suspension, and 54-hp gasoline engine. Also pictured is Owen Frederick, John Deere representative, presenting. Photo by Whitney Whitaker, American Angus Association.

make informed management decisions in the future.

Kelly Johnstone of Albion, Nebraska, took home the complete Priefert Rodeo and Ranch Equipment and Tru-Test by Datamars cattle handling system valued at \$7,247.

Bill Rishel of North Platte, Nebraska, was the lucky winner of the XUV835M Gator™ Crossover Utility Vehicle. Donated by John Deere, the versatile utility vehicle has a retail value of more than \$16,569 and features a three-person cockpit with power steering, front and rear suspension, and 54-hp gasoline engine. Rishel can utilize the Gator to stay warm in the winter or cool in the summer, making ranch work a breeze in any situation.

Giveaway sponsors Priefert, Tru-Test by Datamars and John Deere created a valuable and memorable convention for two lucky 137th Annual Meeting attendees.

To learn more about the 137th Annual Meeting and our generous sponsors, visit [angusconvention.com](http://angusconvention.com). For more American Angus Association news and information, visit [angus.org](http://angus.org). Written by Katy Holdener, Angus Communications

## A Century of Tradition

Arlen Sawyer and family honored with the American Angus Association Century Award.

2020 marks a century of the Sawyer family's membership in the American Angus Association. Arlen (posthumously) and Becky Sawyer of A&B Cattle of Bassett, Nebraska, were recognized as 2020 American Angus Association Century Award recipients during the Awards Recognition Dinner Nov. 8 at the 137th Angus Annual Meeting in Kansas City, Missouri.

The work of Angus breeders is more than a business – it's a way of life. The American Angus Association initiated the Century Award to recognize its members and their families who have been in continuous production of registered Angus cattle for at least 100 years.

"The Sawyer family is a true testament to the tradition and legacy of the Angus breed, and we are proud to welcome them into the exclusive group," said Mark McCully, American Angus Association CEO.

The Sawyers have a rich tradition of Angus cattle threaded through their lives. Arlen's family established their registered Angus cow herd in Howard, South Dakota, in 1917, which was operated by his grandfather and father. On Christmas Eve of 1919, Arlen's grandfather received his membership into the American Angus Association.

"The history and 100 years that we are celebrating are less about the

Pictured, from left, are: Adam Sawyer, A & B Cattle; Eva Hinrichsen, Miss American Angus, presenting; Becky Sawyer, A & B Cattle; and Mark McCully, American Angus Association CEO, presenting. Photo by Karen Hiltbrand, American Angus Association.

place and more about the family legacy that is being handed down onto the fifth generation," said Becky Sawyer.

Arlen and Becky Sawyer's family has been involved with the Angus industry near Bassett since 1976, operating their ranch since 1984. In 1994, A&B Cattle was recognized as a Historic Angus Herd based on more than 50 years of continuously raising registered Angus cattle in the Sawyer family.

Today, Becky; daughter, Jessica; son, Adam; Adam's wife, Jenessa; and their son, Augustus, work together to operate their 600 registered and commercial Angus cow herd in the Sandhills of Nebraska. Augustus Sawyer, fifth generation of the Sawyer family, now holds his great-grandfather's lifetime membership of the American Angus Association. The family hopes that one day Augustus will carry on the Sawyer family's Angus tradition. — Written by Karen Hiltbrand, Angus Communications

## 2021 Angus Internship

### Applications are Open Now

Four hands-on internship opportunities are available to college students.

In agriculture, learning by doing has proven to be the best form of experience. Applications are now open for college-age students to apply for the American Angus Association®, Angus Journal® and Angus Genetics Inc. (AGI) 2021 summer internships. These 10-week internship programs provide a unique hands-on experience that will both challenge and instill confidence both professionally and personally.

“It was truly incredible to be involved in such purposeful work, serving breeders each day in ways that we could make their experiences better,” said Peyton Schmitt, 2020 communications intern. “Team Angus made me feel like I was a true member of the team.”

Not only are these internships valuable in helping students build specific skill sets, but they are an opportunity to extend their professional network. Interns at Angus are assigned responsibilities and guided by experts in their career field to help instill confidence and ensure success.

**The four internships being offered are:**

**Angus Journal:** This writing-intensive opportunity offers the chance to join a multi-media effort, which includes the Angus Journal® print publication and the AJ Daily electronic newsletter, as well as the Angus Journal’s website and social media presence. The internship can be tailored to the intern’s strengths, but many duties can be anticipated, including traveling to industry events. Experience in news and feature writing, editing and photography are strongly suggested.

**Communications:** From print stories to video scripts, photography, graphic design and more, the communications intern will truly gain valuable agricultural communications experience. Applicants should have strong writing and design skills and have completed coursework in news and feature writing, editing and design. Experience in photography, video and social media would be helpful.

**Events and Education:** The intern will assist in planning and executing youth events hosted by the National Junior Angus Association (NJAA), including preparations,

or find us on  

correspondence and coordination for junior shows and events. Applicants should be a self-starter, detail-oriented and outgoing with the ability to work well with others. Livestock and event planning experience is a plus but not required. Travel to the 2021 National Junior Angus Show (NJAS), Leaders Engaged in Angus Development (LEAD) Conference and other events is expected.

**AGI:** Students pursuing their master’s degree or Ph.D. in animal breeding and genetics should apply for the AGI summer internship. The intern will have the opportunity to work with one of the world’s largest

beef genomic databases. The internship will be focused on research that involves data analysis, so candidates should have experience in analyzing animal breeding data sets and genomic data.

**Angus Beef Bulletin:** Angus Media is finalizing an internship structure with the Angus Beef Bulletin that will likely include a part-time schedule on a quarterly basis. Look for details to come.

Students interested in applying should send a resumé, cover letter and references to [careers@angus.org](mailto:careers@angus.org) by Feb. 1, 2021. Visit [angus.org/careers](http://angus.org/careers) for internship descriptions and requirements. — Written by Karen Hiltbrand, Angus Communications

## **American Angus Association Elects New Officers, Board Leadership**

*World's largest beef breed organization continues to be guided by industry thought leaders.*

**F**ive new directors were elected to the 2020-2021 American Angus Association® board of directors, as well as a president and chairman, and a vice president and treasurer of the board, during the 137th Annual Convention of Delegates hosted in Kansas City, Missouri.

Delegates voted to represent Association members at the 137th Annual Meeting and elected the 2020-2021 officers and directors. Directors can serve up to two three-year terms on the board and, if elected, serve additional one-year terms in office as president and chairman and/or vice president and treasurer.

Elected to their first terms are Mark Ahearn, Texas; Smitty Lamb, Georgia; Charles Mogck, South Dakota; Darrell Stevenson, Montana; and Jerry Theis, Kansas.

### **Board Members Elected**

**Mark Ahearn** and his family established Turner Meadow Ranch in East Texas in the mid-1980s. Apart from his 35-year career in law enforcement, Ahearn's passion has always lied in raising high-quality Angus cattle. He has studied pedigrees and learned the business from the ground up. His family has grown their herd to about 200 females while being active in the Texas Angus Association. Ahearn served in a leadership role with the Texas Angus Association for 16 years. In addition to creating numerous educational opportunities and sale events, Ahearn was also responsible for creating and writing the policy for the Raymond Moore Endowment Scholarship Fund which benefits Texas Junior Angus members.

**Smitty Lamb** grew up on a small row crop farm in East Georgia where he discovered his passion for Angus cattle at an early age. He followed that drive to the University of Georgia (UGA) where he earned a bachelor's degree in animal science and a master's degree in meat and muscle biology. His career eventually led him to an opportunity in the cotton industry, but he always came home to Angus cattle. His family has owned and operated Ogeechee Angus Farm since 1997, and it has since become one of the most reliable sources for Angus genetics in the Southeast. Since 2017, Ogeechee Angus Farm has marketed more than 100 bulls annually. Lamb has served in leadership roles with the Georgia Angus Association, as well as the chairman of the Southern National Angus Show committee and the

co-committee chair of the 2009 National Junior Angus Show. The Lambs were awarded the Georgia Angus Association Member of the Year in 2017 for their service to the organization.

**Charles Mogck** is a third-generation Angus breeder from South Dakota. Mogck has built upon his family's heritage in the breed and increased their herd to 400 registered females while marketing 120 bulls annually. They farm 2,000 acres of corn, beans and wheat with an additional 2,500 acres of pasture and hay ground. Mogck & Sons routinely buys feeder cattle from their commercial customers, which allows them to collect data on their customers cattle. Their operation actively utilizes Association programs such as MaternalPlus™ and Angus Herd Improvement Records<sup>SM</sup> (AHIR). Mogck records ultrasound, carcass and genomic information to make the best decisions for the future of their herd.

**Darrell Stevenson** has strong ties to the Angus breed and a history of activity in the Montana Angus Association. Stevenson's grandparents were charter members of the Montana Angus Association in 1951, and his father participated in the first National Junior Angus Showmanship contest in 1967. His father was on the Montana Angus Association and American Angus Association board of directors as well, serving as president from 1992-1993. Stevenson now continues his family's legacy by operating Stevenson Angus Ranch. He is actively involved in international Angus events and has attended shows in Argentina, New Zealand, Scotland and Russia. In 2010 Stevenson created a partnership with two Russian businessmen to form an international beef venture between the two countries. Due to the success, Stevenson has since overseen shipments of Angus cattle to Kazakhstan, Kyrgyzstan and Uzbekistan.

**Jerry Theis** is a devoted second-generation Angus breeder and lifetime member of the American Angus Association. His parents established April Valley Farms in 1952 in the Salt Creek Valley area of Leavenworth County, Kansas. Theis continues his family's diversified operation, now consisting of Angus cattle, crop and swine production. Cattle are marketed through their annual spring production sale as well as private treaty. April Valley Farms was recognized as a Historic Angus Herd by the American Angus Association in 2019. Jerry graduated from the Kansas State University College of Veterinary Medicine in 1991 and currently operates a mixed-animal veterinary practice. He and his wife are actively involved in the Kansas Angus Association and currently serve as the Kansas Junior Angus Association advisors.

He served two terms on the Kansas Angus Association board of directors and as president in 2010.

### **Officers Elected**

**David Dal Porto**, Oakley, California, was elected as Association president and chairman of the board. Dal Porto succeeds Don Schiefelbein, Kimball, Minnesota, who served as president from 2019-2020. Dal Porto and his wife, Jeanene, manage their registered and commercial Angus operation in Oakley, Brentwood and northern California. They have three children - Lindsey, AJ and Dawson. Dal Porto has firsthand experience at every level in the evolution of performance information and how to apply it. He complements that knowledge with a management background developed from his experiences. Dal Porto and his bull sale partner, David Medeiros, were awarded the 2011 Certified Angus Beef® (CAB) Seedstock Commitment to Excellence Award at the CAB Annual Conference.

**Jerry Connealy**, Whitman, Nebraska, was elected by delegates to serve as Association vice president and vice chairman. He has served on the Association board of directors for six years and spent this last year as Association treasurer. The fifth-generation cattleman has operated the family ranch since 1981 with his wife, Sharon. The Connealys have three sons, Jed, Gabriel and Ben; as well as a daughter, Hannah. Jerry focuses his cow herd base on productivity traits and manages two bull sales per year, selling 300 bulls at each sale.

**Chuck Grove**, Forest, Virginia, who is currently serving his second term on the board of directors, will serve as the 2020-2021 Association treasurer. Grove was an American Angus Association regional manager serving Kentucky and Tennessee, and during his 39-year tenure, he also covered Virginia, Maryland, West Virginia, Delaware and Ohio. Grove and his wife, Ruth, reside on the family farm and run a 100-head Angus herd.

For more information about the American Angus Association board of directors, visit [www.angus.org](http://www.angus.org). -Written by Katy Holdener, Angus Communications

*From our mailbox!*

**Dear Nebraska Angus Association,**

Thank you for the Producer of the Year recognition we received at the recent Annual Banquet. We are very honored and humbled to be selected as this year's recipient.

Thank you to all who have played a part in our program's growth over the years. We are proud to be members of this organization.

With thanks and appreciation,  
*Clint and Suzy Hebbert family*  
*ED Angus*

**To Whom it May Concern,**

Congrats on the outstanding job hosting the 2020 Angus Tour. For years I've wanted to attend a tour and this year the location was in Southwestern Nebraska. My grandson attends NCTA in Curtis, NE and thought it would be a great weekend to spend with him on the tour.

WOW!! What an event. Unbelievable the job that Margo Lehn and her staff did in organizing the event. What a great, great couple of days my grandson and I had. And unbelievable job and event.

Thanks,  
*Mike Smith, Harrison, NE*

**Dear Younes Convention Center,**

The Nebraska Angus Association sends you appreciation for helping accommodate for our annual meeting and banquet. With health restrictions and social distancing, you kept our event safe and always communicated

with us. Your establishment is a great place to host big events.

Thank you!  
*The NE Angus Association*

**Nebraska Angus Association,**

Thank you very much for your support of the Nebraska Angus Queen program through contributing \$1,000 towards the queen's traveling expenses. I am excited for my new role as the 2021 Nebraska Angus Queen and look forward to representing and advocating for the producers and breeders throughout the state.

Thank you again for your sponsorship. It is greatly appreciated.  
*TaraLee M. Hudson*

**Dear Nebraska Angus Association Members,**

Thank you for all your support in 2020 during challenging times. Having you all reach out to me and give me appreciation in the job I have been doing means a lot. This year was another learning year, but it was worth every bit of it. I cherish each of you and may your 2021 be filled with happiness.

Thank you,  
*Margo Lehn, Sec/Mgr*

## *Birth Announcement*

**Etta Kate Meusch**

Brad and Aliesha Meusch are excited to announce the arrival of their daughter, Etta Kate Meusch. She was born on October 13, 2020 at 2:09 am at the Columbus Community Hospital in Columbus, Nebraska. She weighed 8 lbs 13 oz and was 21 1/2 inches long. Etta is the granddaughter of Craig and Laurie Dethlefs of Dethlefs Angus Ranch in Ravenna, NE and Ron and Lori Meusch of Bellwood, NE.

# 23rd Annual Sale

# MARCH 1, 2021

2:00 PM CST | NORTH PLATTE, NE | LINCOLN COUNTY FAIRGROUNDS  
**SELLING 70 BULLS & 20 HEIFERS**

Our cows represent our balanced approach to breeding profitable, sustainable genetics. Our vision is to produce moderate birth cattle with three-dimensional mass, early rapid growth, a practical mature size and a quiet disposition.

You're buying more than just a bull or heifer. Our product sells with genomically enhanced EPDs, parent verified genetics and a 100% satisfaction guarantee.

We're a family business that sincerely appreciates you! At the sale, we offer Repeat Buyer, Volume and Trucking Discounts. After the sale, we can personally assist you in adding value to your calf crop.

CEB	EB	WM	YW	SC	HP	MILK	DOC
7	1.6	65	100	1.85	12.4	27	27
MARK	RE	\$M	\$W	\$F	\$G	\$B	\$C
.77	1.00	48	62	114	07	101	204

These are his only sons and daughters to sell nationwide this spring. They've surpassed our expectations with moderate birth, impressive phenotype, high performance, improved foot quality and enhanced carcass merit.

CEB	EB	WM	YW	SC	HP	MILK	DOC
16	-2.1	61	121	1.22	11.4	29	13
