ALL NATURAL!

KICKSTART WEANING

FEEDLOT STARTER

Formulated to reduce the impact of stress
on cattle health and performance.

VITALIX'S ALL-NATURAL KICKSTART WEANING TUB & FEEDLOT STARTER CAN HELP YOU...

Boost calf recovery following transportation

Stimulate immune response

Increased dry matter intake in calves for increased ADG and feed efficiency Provide added essential nutrients and protein in a palatable,

NaturSafe® is Diamond V's next generation immune health feed additive. NaturSafe® is a natural, non-antibiotic feed additive that is specifically formulated to optimize beef cattle health, performance, and food safety.

INCLUDING NATURSAFE® WILL SUPPORT...

- Optimal rumen and digestive health
- Overall health and immune function
 - Improved ADG and efficiency
 - Antibiotic stewardship
 - Consistency of intake

Stress decreases the body's ability to absorb and retain mineral stores. By providing the most bioavailable trace mineral package on the market, Availa® 4, we can ensure that those animals are receiving adequate mineral nutrition.

IMPROVED HEALTH AND PERFORMANCE OF INCOMING CALVES INTO THE FEED YARD

- Increase dry matter intake (.35 lbs)
- Decreased morbidity (20.8%)
- Improved ADG (0.09 lb)

INTEGRITY, QUALITY, VALUE...
GUARANTEED!

Summer has been in full swing and the Association is looking forward to fall. August and September are busy months here at the Nebraska Angus Association office and I want to inform you of the events coming up.

First event will be the Lowell Minert Open Angus Show at the Nebraska State Fair in Grand Island. Open class beef cattle may start arriving on Monday, August 29th at 10:00 AM and must be in place by Tuesday, August 30th at 10:00 AM. Levi Landers and myself will do a walk around check in, so you do not have to bring your animals up front. Please go to the office for exhibitor numbers and information. Juniors, please note that breeding heifers need to be checked in at the State Fair office. The show will begin at 9:00 AM on the 31st. Angus are in Ring 1 and will follow Red Angus. The judge for the show will be Jon DeClerck. Junior Breeding Heifers will follow at 4:00 PM and Supreme Row will be September 1st at 6:00 PM. A \$12,000 added money award will be available for Supreme Champions. The Nebraska Angus Association each year awards \$500 each to the top Nebraska Bred and Owned Bull and Female. Please join us this year at the State Fair!

Following the State Fair, the Association will travel to display at Husker Harvest Days. Dates for the event are September 13-15th. We will have a great display of Angus cattle and information. You can sign up to be on the Nebraska Angus Tour, buy a Heifer Raffle ticket, visit with our Nebraska Angus Association members, and see elite Angus genetics. Come show your support for the Angus breed and beef education this year at Husker Harvest Days!

Next, we will gear up for the annual Nebraska Angus Tour on September 26th and 27th! This year the tour will be held in the Northeastern District. Headquarters for the tour will be Norfolk at Norfolk Lodge and Suites or known as Divots. There is a huge lineup this year for the tour! First, the tour will kick off Monday morning with registration at 8:00 AM at Divots. From there the tour participants are given the option of golf at Crofton Lakeside Golf Course or a river tour along the Missouri River and Gavin's Point. Bus transportation is available upon request by September 1st! In the afternoon we will travel to the Lewis and Clark Pulley Museum for a tour and lunch, stop at Heine Farms Feedyard located near Crofton, and then travel west of Crofton for our first cattle display at Poppe Bulls. Following Poppe Bulls, the tour will move to Foxhoven Angus for the evening dinner stop. Dinner stop will include a Foxhoven Angus cattle display, great food, and special guest Tyler Walsh for an evening full of laughter and fun! For Tuesday, the tour will be an all-day event starting with a breakfast and cattle display at Jindra Angus near Clarkson. From there we will move to Columbus, Nebraska, to Ag Park to see displays from Frese Angus and Macholan Angus. At Ag Park there will be a brief presentation by Jerry Cassady of American Angus Association Member Services and tour sponsor Big Iron. For lunch we will move to the Bullodge in Fullerton where they will offer several Angus cattle on display, and an equipment demonstration. Those displays include: Frenzen Angus, DBL Inc, Dodds Cattle Co, Dubas Cattle Co, Dubas Equipment, Sonderup Angus, and T&E Angus. From Fullerton, the tour will move to Wagonhammer Ranches near Albion, this year's heifer raffle donator, for a ranch stop, and conclude at Niewohner Arena for dinner and cattle displays from Circle B Livestock LLC and Scott Angus Cattle. Registration for the tour is due to the office by September 15th at \$50 per person (September 1st if you want to ride the bus)! There is also a discounted hotel room block set at Divots. Please ask for the Nebraska Angus Tour and have reservations made by August 26th to receive a discount. Please join us this year for all the fun at the Nebraska Angus Tour!

Now did you all get that? Ha! The Nebraska Angus Association is excited to help represent all our Nebraska Angus members at our upcoming events. Please reach out to us if you have any questions or concerns!

PRESIDENT SPEAKS

By: Jeff Ruggles, NAA President

Fellow Cattlemen,

I hope as you read this you have been blessed with big, healthy Angus calves on green grass. As I write this in mid-July in our area of Southwest Nebraska, we have received around 6 inches or less of moisture in the last 13 months. Along with day after day of 100-degree temperatures, the grass is getting really short and feed supplies are tight and almost nonexistent in some areas.

On a recent trip into the Sandhills, it was good to see green grass as some areas have been blessed with timely rains. So, as it is every year some areas are better off than others.

In southwest Nebraska, tough decisions are looming for area producers. Herd liquidations have been ongoing all spring and summer. Many producers are selling the calf crop or weaning 2-3 months earlier than normal.

The good news is the calf price at the sale barns and summer videos seem to be substantially higher than last year.

Nebraska Angus genetics are some of the best and most sought after in the world. Recent sales have had prices approaching \$2.25 for 600lb calves, \$2.00 for 900lb steers and over \$1.50 for fat cattle. Nebraska Angus producers are producing the best beef products in the world, and you should be applauded for it!

In Association news we are gearing up for the Nebraska State Fair, Husker Harvest Days, and the Nebraska Angus Tour. This year the tour will be held in the northeastern part of the state on September 26-27th. The Nebraska Angus Tour is a great event with a lot of great food, comradery, and Angus cattle. Hope to see you there!

Sincerely,

Jeff Ruggles

AAA BOARD UPDATE & DIRECTOR'S CORNER

By: Jerry Connealy AAA President

WANTED

The Nebraska Angus News is in search of photos from around Nebraska from our fellow Angus Breeders! We would love to see them and publish some in our magazine and maybe on the Cover!

*If you have a picture of your place or your Angus herd please send to:
jcranchdesigns@gmail.com
Photos must be high resolution
(300 dpi or better) and at least
8 inches wide.*

Dear Nebraska Angus Friends,

The big news in our industry is that the Certified Angus Beef brand has exceeded 1.2 billion pounds in sales for fiscal 2021! What an accomplishment, and what a nice spark of optimism for today's cattle market.

This kind of sales success gives us assurance that the consumers are desiring (and paying for) a superior product in both restaurants and retail outlets. This news also provides justification for producers to keep striving for the genetics that provide an efficient, productive animal that will also yield carcass merit. The CAB acceptance rate of black cattle is sitting at 37%.

No other breed in our industry has a machine driving demand like the Angus Association's Certified Angus Beef program. There was a record of \$182 million in premiums paid to producers of CAB carcasses in 2021, and a total of \$1.1 Billion has been paid to producers in the form of premiums since 1998.

Of note, so far in 2022, CAB prime carcasses are bringing \$20 per hundredweight over choice CAB carcasses.

Therefore, we producers are supplying more high-quality cattle to the marketplace, and it's being embraced by enthusiastic consumers who are recognizing the power behind the CAB label. All in all, it's a great

story line that will help to keep our breed strong.

I encourage you that if you're dining out, or purchasing meat over the counter, to look for those restaurants and retailers that offer CAB. Being a consumer of our own brand helps to drive demand for our product and delivers premiums to every segment of the industry. Don't forget that in doing so, you'll also enjoy that consistent, great eating experience, too!

My best to all of you as we venture into another season raising good Angus cattle, and remember to patronize our strong CAB brand, and encourage others to look for it and enjoy it, as well!

Sincerely,
Jerry Connealy
American Angus Association
President, Board of Directors
(308) 544-6552 jconnealy@gmail.com

AM I FULL OF CRAP?

Calf scours are not inevitable. A strong prevention program is non-negotiable. Dependable scour prevention is essential for calf welfare, employee morale and business profitability. The immune system's response to vaccination is variable and unpredictable. That's why giving preformed antibodies instead of relying on a vaccine to stimulate antibody production is so important. I'm all for removing uncertainties. So yes, I stand by this product. (And no, I'm not.)

NE AUXILIARY PRESIDENT SPEAKS

By: Heather Smith, NE Angus Aux President

Greetings Angus Friends!

Summer is in full on heat mode, and I hope that you all are getting by, and doing well.

Several of our angus families travelled to Kansas City this July, to attend the National Junior Angus Show. Many of our Juniors were successful in winning classes, and winning contests.

I attended the mid-year Auxiliary meeting, and again, the continued support that the Auxiliary provides for the Junior program, is second to none. Being a part of the Auxiliary is a very rewarding experience, and one that I hope to be able to continue.

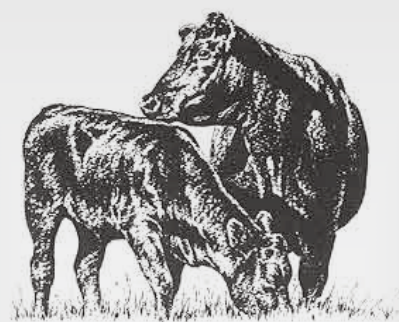

We are planning to hold a fundraiser at the Winter Banquet this coming December. If there is anyone who has items for donation, please let me or another of the Auxiliary members know. We hope to grow our funds to the point of being able to have scholarship opportunities to offer our juniors.

Please reach out to any of us if you are interested in joining our group.

Sincerely,

Heather Smith •

By: Tavin Uden, NJAA President

Hello Angus Friends!

With summer coming to an end the Angus juniors have had a pretty busy summer. We kicked off summer with our state show in Broken Bow. We had our annual meeting at the state show where we elected our new team of officers composed of Kasey Meyer, Addison Cotton, Daniel Young, Tucker Stagmeyer, Wyatt Smith, and myself. We had our banquet/picnic and it was a good time for us to gather together and play a couple fun games. We said goodbye to one of our sets of advisors, Laurie Dethlefs and Aliesha Meusch.

The National Junior Angus show was held in Kansas City this year. It was hot and humid but despite that we all still found a way to bear the heat and have a good time. Nebraska had a pretty good year at junior nationals. Many of the juniors and their teams placed extremely well in all of the competitions they participated in.

We will be having our annual State Fair meeting soon where we will be discussing plans for our state show and setting up committees for the winter show. Everyone is invited. Check out our junior Facebook page @Nebraska Junior Angus Association for updates and more information on upcoming events

I hope to see you all at the State Fair.

Sincerely,

Tavin Uden

2022 NEBRASKA ANGUS TOUR - NORTHEASTERN REGION

POPPE BULLS *Years In The Making*

Welcome to Horseshoe Hill Ranch, founded by Gary and Karen Poppe. Horseshoe Hill Ranch is a small family ranching and farming operation that began first with a few Simmental cows purchased from

The Poppe Family

Karen's Dad, Ken Kube of 10 Bar Ranch in 1980. A few years later Angus cows were acquired from Kube 10 Bar Ranch and Bryce Angus Ranch from Plainview. The herd grew slowly in the early years being a part of a diversified operation that included a farrow to finish hog operation.

Gary's interest in improving beef genetics began in 1972 as a sophomore in high school, encouraged by a local Carnation breeding service representative to take an instructional class to learn the practice of artificial insemination. This skill and quality foundation Angus cows began the journey that led the herd to where it is today. The second generation began in 2005 when Jay, Deanna and their kids came back home and the opportunity to grow the herd arose.

Today, the hogs are gone and a larger herd of Angus, SimAngus and Red Angus cows remain. Their Angus females are the result of a quality foundation, enhanced by many years of artificial insemination. Their goal is to get as many females A.I. bred as possible with well over 300 cows and

heifers serviced artificially the last few years.

This year Poppe Bulls had the privilege of one of their bulls, HHR Jailbreak H111, Reg # 19833576, to join the Origen marketing system! They feel Jailbreak is just the tip of the iceberg with many more great Angus

bulls and females waiting to be seen! Look for their bull sale in February and check out poppebulls.com for sale date and bull data as it becomes available.

Be sure to stop at Horseshoe Hill Ranch, 89079 544 Ave, Bloomfield

NE during the Nebraska Angus Tour. Hope to see soon!

FOXHOVEN ANGUS *Working For What They Love*

Foxhoven Angus of Crofton, Nebraska, will serve as our evening meal stop on day one of the tour. Foxhoven's started their Angus operation in the early 90's with around 12 heifers and over the years have grown to 470 registered Angus females. They have not purchased any outside families since the start.

Their breeding program focuses on performance and fertility ability. The cattle are deep, stout, long and muscular. Replacement heifers and bulls are selected off of structure, feet, legs and performance at weaning time. Foxhoven's utilize in herd genetics

2022 NEBRASKA ANGUS TOUR - NORTHEASTERN REGION

and with that around 70% of the females are bred to bulls they have raised or purchased, and when the fresh genetics of the top sons of the new genetics click, they collect and use that in the herd. Foxhoven's cows are very productive and they are at the top of the state for pathfinder awards. They focus on making every cow great. They breed on natural heats for the first cycle and get high conception rates.

The operation is run by family alone, along with great friends during their bull sale. Galen takes care of everyday feeding and farming. Galen and "Brenda", who recently passed away, live on the original family homestead. He is the third generation on this land. Brock and Jody, along with their kids (Tuff, Ellie and Maci), live on the calving headquarters. They take care of the calving, breeding, and everyday cattle work. Justin and Erin, along with their kids (Ian and Layla), live on the sale place and help out wherever needed. Justin owns a construction company in Crofton that builds everything from cabins, homes and sheds.

Brock has served as President of the Nebraska Angus Association. He currently is active on the Knox County Cattlemen's Board. He stays active in everything cattle related.

The Foxhoven Family are looking forward to visiting with you about their operation and the area they live in. They are excited for the 2022 Nebraska Angus Tour!

JINDRA ANGUS Breeding for Efficiency

In 1878 Jozef and Josefka Jindra traveled from Hlinsko, Czech

Republic to settle near what is now Clarkson, Nebraska where they started farming and raising cattle. The Jindra family has been involved in agriculture in that area ever since. Growing up, Nick enjoyed going to cattle sales with his father Roger and grandpa Edwin. Nick's registered Angus herd began as a 4-H and FFA project when he was able to start working with cattle and has grown ever since.

In the 1990's high quality feeder cattle that were able to convert with the most profit potential for the Jindra's were found far from home. The Hoff Scotch Cap herd of Bison, SD is where the first foundation registered females were purchased in 1994. From that time on until the Hoff's dispersed in 2006, the Jindra cow herd grew from Hoff genetics extensively with artificial insemination, embryo transfer, and the addition of top

donors from many great cow families at Hoff Scotch Cap. Today, the Jindra breeding program has been complemented by genetics from many great Angus programs, but maintains a potent base of Scotch Cap genetics. Our goals

are to continue to produce functional, high-performance cattle that have the potential to increase profit in every sector of the beef industry. From commercial cattlemen to the

consumer: Efficient cattle that will excel in the marketplace.

The operation is centered around a cow herd of about 500 registered

The Nick & Lydia Jindra Family

mother cows and includes a feed yard where the genetics are tested, evaluated, and marketed. The Jindra Angus annual production sale is held on the second Wednesday in February each year at the Bull Center near Clarkson, NE. February 8, 2023 will mark their 23rd Annual Production Sale. Those involved in the Jindra operation include: Nick and Lydia Jindra and their children Carrie and Emma; Roger Jindra; Bryce and Brooke Thielen and their family; Brian and Jenny Kappel and their family; Brian and Vanessa Cumming and their family, and many others that help to get things done. Ranching and farming is a great way to make a living and raise a family that the Jindra's greatly enjoy and appreciate.

Nick and his family consider it a privilege to work with fellow cattlemen and are always striving to learn everything they can from other cattle producers. The Jindra's are excited to welcome the Nebraska Angus Tour to the Bull Center on September 27.

FRESE ANGUS Ag Park Display

Frese Angus and Hereford was started by brothers Eric and Michael Frese in 2004 with a heifer purchase from Quirk Land and Cattle. Females

2022 NEBRASKA ANGUS TOUR - NORTHEASTERN REGION

The Eric & Ashley Frese Family

were purchased in following years from Daigger Angus, Jindra Angus, Gardiner Angus, and Baldrige Angus. A few of the cows were flushed to utilize the already established commercial cow herd to raise more registered calves. Specifically, Baldrige Princess S11 was flushed extensively, and many females can currently be traced to this exceptional female.

The Hereford side of the operation is smaller and still being established. Females have been purchased from Linton Polled Herefords, Sandhill Farms, and Vin-Mar Cattle. Our goal is to grow our numbers and continually improve the quality of our cattle in both breeds to give our customers a wide selection of high-quality bulls to choose from.

From 2009-2013 small numbers of bulls were sold privately. Sales and interest increased from 2014-2016, then in 2017 the decision was made to switch to an annual spring bull sale. Following the 2021 sale, Michael made the decision to focus on commercial heifer development. He sold his portion of the registered herd to Eric. Eric, along with wife Ashley, daughters Ellie and Maggie, and son Lawson are now the owners of the registered operation. Close work continues with Michael, wife Jenny, daughter Bailey, and son Jasper, as well as Eric and Michael's parents Kent and Jacque.

The three families also farm in the area raising corn, soybeans, and

alfalfa. Eric and Michael recently sold off their tree removal business. Eric also works for Select Sires, while Ashley is a teacher at Christ Lutheran School north of Columbus and operates an online shirt business called

The Farmer Took a Wife.

We thank you for taking the time to look over our operation, and look forward to meeting everyone. It's been a blessing being in the Angus business, and the cattle business in general as we believe it contains some of the best people around.

MACHOLAN ANGUS
Committed to Customer Satisfaction

Macholan Angus would like to welcome you to the Nebraska Angus Association 2022 tour! Our family consists of Jim & Jessica Macholan, our son Keaton, brand new granddaughter Layken Nicole and soon to be daughter in law, Aubrie Parde. The Macholan family has been in the Linwood area for nearly 125 years. We reside a few miles northwest from Linwood, NE in east Central Nebraska along the Platte River, raising corn, soybeans and alfalfa along with cattle. Most of the pasture is located within five miles from the home place in the Platte River valley. We have about 200 head of registered Angus cows that we run along with Jim's brother. Jim has been involved in the family operation for 40 years and we have been raising registered Angus for about 20 years.

Jim is the third generation raising

cattle on the farm, Keaton is the fourth. Traditionally we had always raised commercial cattle that were sold as feeders until 1981 when we purchased the first Simmental bull and Simmental cows with calves and began selling bulls by private treaty. In the late 1980's we began crossing them with the Angus bulls and realized the value of Angus genetics. We always kept our own replacement heifers but in the early 2000's began purchasing purebred Angus cows/heifers. We tried to purchase top females from Angus breeders. Most of the cow's trace to the following sires: Jindra Double Vision, Jindra Acclaim & Jindra Superior (all natural &/or AI), Connealy Blackhawk 6198, Connealy Guinness, MGR Treasure, Mogck Bullseye, Hoover No Doubt, SAV Resource 1441 and SAV Renown 3439.

Our commitment to improving the herd of bulls and females in our program has been an ongoing investment. Our focus has been to select elite genetics through semen from outstanding sires and addition of superior producing cow families to their breeding program. Through artificial insemination (AI) and embryo transfers (ET) we have continued to improve the genetics in the herd. When selecting Angus cattle to add to our operation, we look for fast growth, efficiency and attitude of the animal is also a must so docility is key.

2022 NEBRASKA ANGUS TOUR - NORTHEASTERN REGION

We sell yearling bulls and select yearling heifers every year on the first Tuesday of March at the Columbus Sales Pavilion in Columbus, Nebraska. Our sale will be March 7, 2023.

We know our future and success depends on customer satisfaction. Repeat customers, long-standing relationships and real genetic value are what we strive to produce. Visitors are welcome anytime. We are excited to be a part of this year's tour, displaying cattle at Ag Park in Columbus, NE on September 27th.

DBL INC.
*Offering the Best to You
The Real Cattle People*

Dean Christensen and Bonnie Christensen owners of DBL Inc. and their family, Brett and Leah Zikmund (daughter and son in law), Tyler Olson (grandson), Terry Christensen (son), and Chelsea Christensen (granddaughter) welcome you to the Nebraska Angus Tour!

DBL was started when Dean and Bonnie purchased 100 commercial cows which, in a couple years turned into selling breeding bulls. Then, they started to buy registered Angus from several top Angus breeders. By 2006, they were selling commercial and registered bulls, and commercial Angus females on a yearly sale. In the last couple of years, they have started a very aggressive embryo program using some of their younger donor cows and herd bulls. In 2022, they placed close to 200 embryos into their

top commercial recipient cows. Their base cow herd goes back to SAV, but they have branched into many other top Angus programs. They have bought top herd sire bulls such as, Mohnen Worldwide 2617, Monhen Homeraised, Baldrige Versatile, and Ellingson Turn Key. Many of this year's replacement heifers kept are out of SAV Black Diamond, Renovation, America, Circuit Breaker, Mohnen Niobrara, and Worldwide.

Along with raising Angus cattle Dean and Bonnie own and operate two feedlots. These feedlots are Christensen Cattle at Central City and Sandy Ridge at Fullerton. The feeding capacity between the two feedlots is 25,000 head. The family farm and run a trucking company as well.

Their short-term and long-term goals are to produce highly productive animals for their customers and their operation that will show profit at the end of the day. They hope to keep and replace annually with animals that are highly efficient. From the production of cows and bulls for customers and cattle for the feedlot. DBL yearly bull and female sale is every third Thursday in March. Their sale location

is the Bulldodge located four miles west of Fullerton on Highway 22.

Check DBL Inc out at the Bulldodge stop in Fullerton on September 27th for lunch and their cattle displays!

DODDS ANGUS
Cattlemen In Mind

Dodds Cattle is located about an hour north of Grand Island, Nebraska. Nestled in the "Timbercreek" which was once described by early settlers as true Gods Country. Bob bought and remodeled the home he grew up in. He married his wife Tonya in 2016. In

The Dodd Family

2021, Bob and Tonya purchased the cattle operation from Bob's parents. Sharing four children, we are now empty nesters. Bob's son Trey is an integral part of farming with a growing passion for the cattle operation. Tonya's kids, with no ag background left for the big cities, but still find respite in the smell of cow manure back home.

Cattle has been a multi-generation endeavor. What was once a dairy while Bob was growing up, is now home to our seedstock operation. 2017 was our very first registered cow purchase, as we desired to know more about pedigree and genomics. Since 2017, we have grown our purebred herd substantially. This year we will hit a milestone of registering 100+ calves! While our registered herd grows, our commercial herd numbers dwindle. We'll continue to retain about 100 commercial cows for recipients until we're no longer wishing to put in so many embryos.

Aside from running cattle, Dodds family owns, leases, custom farms

nearly 5000 acres of corn and soybean crop. With several hundred acres for hay / alfalfa.

In addition to farming and operating a cow / calf operation, we also operate a feedlot using most feed sources grown directly from Dodds Farms. Tonya works off the farm, for the United States Postal Service as a Postmaster for a small rural community, but works alongside Bob when she's home.

Our short-term goals would include bringing Trey aboard full-time to work alongside Bob and continuing to grow our brand. Dodds Cattle is quite affluent on social media but we'd love for our brand to be known for our cattle, not our viral social media posts. Slowly getting there, but we were well received at Cattlemen's Congress this past winter and look forward to displaying more cattle in 2023.

Long term goals would include more farm to table beef sales, educating the public on the monetary value, and quality of beef that is sourced from their local ranchers. Having held our first sale at our own facility this past year, we'd also like to do some additional upgrades in the future to the sale facility / calving barn. Our bull sale is held the last Sunday in February. We usually have a handful of heifers and late calvers / pairs on our sale each year also.

Thank you for allowing us to introduce ourselves a little. If you'd like to learn more, give us a follow-on Facebook or visit our website at www.doddscattle.com.

DUBAS ANGUS
Cattle to Work for You

Dubas Cattle Co. is a registered Angus and Red Angus operation located west of Fullerton four and a half miles. Gene Dubas is the owner of Dubas Cattle Co while Jarrod Dubas, the son of Gene, manages the day-to-day operations alongside his cousin Derek Dubas. Gene's business of Dubas Equipment

keeps him busy throughout the year. He travels around to trade shows marketing cattle equipment such as Silencer Hydraulic Chutes, and full working systems by Moly Manufacturing including: Turret gates, tubs and alleyways.

Dubas Cattle Co have been breeding Angus cattle for over 20 years and run around 150 Angus and Red Angus registered cows. Their herd has been influenced by programs such as Basin Angus, SAV, Ellingson, Sitz, and Colemans. They have seen inconsistencies in chasing fads or "hot" bulls and very seldom use an AI bull they haven't physically seen and

The Dubas Family

assessed with their own eyes. The cow's winter on corn stalks without additional feed. If the weather allows, they calve on corn stalks as well. They bring them home to AI and then immediately pair out to grass. With asking a lot of their cows in a very important time of the animals' nutrition it's crucial that their cows maintain a good body condition and

not rely on extra inputs. Dubas Cattle Co believe this is how most of our customers expect their cattle to perform. They find no reason to run cows any differently from the ones who are buying their genetics to put in their herds and expect their cattle to thrive in any operation.

Over the past few years Dubas Cattle Co has been retaining 90% of their yearling bull crop to market them as virgin two-year-old bulls. By doing this, they hope to offer their customers a more mature and developed herd bull. One item to note is they do not offer creep to the bulls they are retaining. The bull's winter on ground hay and silage and then go to grass the next spring to grow naturally. They receive supplemented cake every two weeks while on grass. The Dubas have found this helps their disposition.

The Dubas Cattle Co annual bull sale is held the first Saturday March. This year they will be offering around 50 fall and two-year-old Angus and Red Angus bulls. They will also have a nice selection of females ranging from open heifers to pairs. For Dubas Cattle Co they plan to aim to build upon their clientele and continue to supply existing customers with everyday cattle that go to work for them.

FRENZEN ANGUS
Roots Running Deep
Frenzen roots run deep in the Cedar River Valley northwest of Fullerton. Galen's great-grandfather Hans Frenzen, an immigrant from Germany, settled in the valley with his family in 1902. Galen's grandfather Frank Frenzen came to the farm where Galen and his family now live on March 1, 1929. Other than for his years in college, this is the only place Galen has lived.

The Frenzens have always been in the cattle business. The first registered Herefords were added in 1952 as 4-H and FFA projects for Marlin and Galen.

Commercial Angus cross females were added in 1968.

Registered Angus made their appearance in 1979 when Galen married Gwen Logan, the daughter of the late Harold, Sr. and Dorothy Logan of Blackgates Angus Farms at Diller, Nebraska. Galen and Gwen's family consists of their son Eric, daughter Genna and her daughters Kiera and Kinsley Bremer, daughter Tessa, and her husband Cody Adams and their children Austri, Clint, and Cash.

The first registered Angus were a few select bred heifers purchased at complete and mature cow dispersions. Emphasis was on soundness, milk, fertility, and performance. Originally, Galen was in partnership with his brother Marlin, and lifelong friend, Dr. Loren Faaborg of Scottsbluff. Marlin passed away in 1992 and the partnership with Loren was dissolved in 1995. The operation is now owned and operated entirely by Galen, Gwen, and their son Eric. There are approximately 350 registered Angus, both spring and fall calving, along with 150 registered Polled Herefords. Farm land consists of irrigated and dry land corn and soybeans plus dryland alfalfa. Irrigation water is surface water permitted from the Cedar River.

The herd has always been rigidly culled with emphasis on fertility, calving ease, performance, milk, soundness, and positive carcass traits. No creep is fed to any of the calves and all cows are expected to bring in a big calf on their own and breed back with very little supplemental feed – except when the snow gets deep. The operation has always been on the AHIR programs with whole herd

The Frenzen Family

reporting. Extensive A.I. has been used along with embryo transfer. All animals are ultra-sounded as yearlings for carcass information and EPD accuracy. Top herd sires have been purchased and sires have been selected from within their own herd. New genetics are incorporated primarily through A.I. Current herd sires include: Krave Medicine Man 9101, Krave Transformer JK 9363, Frenzen Entrust E72, Frenzen Galaxy G108, and Frenzen Medicine Man J42.

An annual production sale is held the fourth Tuesday in March where spring, fall yearling, and two-year old bulls are sold. Also selling are select yearling and bred heifers, plus two-year old pairs. Females and club calves are also available at private treaty. Younger bulls are kept back specifically for private treaty later in the year. All sale bulls are genomically tested to improve the accuracy of EPD's. We use EPD's as a tool. We are not a numbers chaser. New this year is an online bred heifer and elite genetic package sale on December 11, 2022 on Lowderman Auction Options.

Frenzen Angus appreciates your attendance at their tour stop, look forward to visiting with you and hope to see you again!

SONDERUP ANGUS
Family Determined for Quality

Sonderup Angus is proud to be part of the 2022 Nebraska Angus Tour. Our cattle will be displayed at Bullodge.

2022 NEBRASKA ANGUS TOUR - NORTHEASTERN REGION

The Sonderup Angus herd was started over 50 years ago when Lori and her sisters started to show in 4-H. Lori's parents Lee and Judy Sonderup purchased Angus breeding heifers, which became the base of the herd. After graduating college Lori and her husband Darrel decided to get more

Lori & Ashley Wagner

involved with the Angus breed through AI and Embryo transfer. Top genetics were purchased from some of the top Angus breeders in Nebraska, which included TC Ranch, Jim Baldrige, and Krebs Ranch, to name a few. The herd was able to grow and get large enough to start having a production sale starting in 1990 till 2003. Their daughters, Ashley and Cassie, become involved in the National and Nebraska Junior Angus Association and 4-H. Many family summer vacations were spent at the NJAS. In 2003 the family made the decision to disperse the majority of the cow herd following the untimely death of their husband and father, Darrel Wagner. Today the herd is run by Lori and Ashley with the help of their hired man Fred who has been with them for over 50 years. Cassie's kids are continuing the tradition and have become members of the Nebraska and National Jr Angus Association, showing at the state and national level.

The cow herd currently consists of around 50 spring calving cows and 25

fall calving cows. Foundation sires include VAR Generation, VAR Power Play, SAV Resource, and Renown. A.I. is highly used along with embryo transfer from select donor cows in the herd. Current calf crop sires include Musgrave Exclusive, 4M Ace, B/R MVP, and Poss Deadwood. Bulls are

marketed at a production sale in the spring and females are sold by private treaty.

Sonderup Angus is determined to continue to provide super quality Angus genetics with maternal power, depth, and thickness with good carcass traits, that are

docile for the success of their valued customers. They are looking forward to seeing all the tour participants on Tuesday, September, 27th at Bullodge.

T & E ANGUS *Bright Future for T & E Angus*

Welcome to the T&E Angus stop on the Nebraska Angus Tour!

The family of Travis and Emilee Kuhn including daughters Clara, Camryn, and Collins, and Travis's parents Kurt and Kristen Kuhn are located near Clarks, Nebraska. They manage around 250 head of Angus cows. 200 head of these cows are registered with 50 head being commercial. With raising Angus cattle, they also operate 2,500 acres of corn, soybeans, native grass, and alfalfa hay. They produce all of their winter feed and grain, and whatever they do not use is

marketed through the local elevator and ethanol plant.

Kurt began raising Angus cattle in 1980s' and was selling bulls through a private treaty under Mr. K Angus. Kurt and Kristen are still extremely involved and a vital part of the operation. Travis graduated from Fort Hays State in 2011 with a degree in Animal Science. After graduation he spent time working for Schaff Angus Valley and Poss Angus, before returning home to farm and raise cattle alongside Kurt. When Travis and his wife Emilee returned home, they started T&E Angus and run a joint production sale with Mr. K Angus. Since this time, they have doubled the size of the registered herd through extensive AI and embryo transfer. The cows run on summer grass that is all located within a six-mile radius of the ranch and are wintered on corn stalks. In the spring they graze rye. The calves are weaned at the beginning of September and are backgrounded at the ranch until sale time.

The base of the cow herd originates from Schaff Angus Valley, Sitz Angus, TK Angus, and Poss Angus. Sires that have left a lasting impact on their herd are Connealy Capitalist, SAV Renown, and Poss Maverick, as well as the owned herd sires including, TK Investment C894, MK Thick Cut, and WAR Calvary BO63. Each spring they AI around 200 cows and heifers to lead sire

The Travis & Emily Kuhn Family

2022 NEBRASKA ANGUS TOUR - NORTHEASTERN REGION

bloodlines that will improve their herd as well as their customer's herd. They put in around 75 embryos each year. Along with their spring herd they manage a small fall herd for their customers that seek an age advantaged bull. Their goal is to continue to breed and raise cattle that not only improve their herd, but the Angus breed by focusing on functionality and profitability. Look for bulls in their 2023 sale sired by SAV Downpour, Poss Rawhide, Ellingson Three Rivers, SAV Rito 9969, and M K Coaltrain.

For marketing, T&E Angus hosts an annual online bid off sale and open house through DVauction the first week of March. They market around 50-60 yearling, 18 month, and two-year-old bulls, and approximately ten handpicked yearling open heifers. The heifers that aren't kept for replacements or for their sale are sold by private treaty. Their steers are marketed through Fullerton Livestock Market each January.

Please check us out at the Fullerton Bullodge stop on September 27th!

WAGONHAMMER RANCHES
*Wagonhammer Ranch's
Total Performance In
Its Second Century*

Wagonhammer was founded in 1910 by Max & Julius Wolf. They came over from Germany as boys and settled in Albion where they began as horse traders. They purchased most of the Wagonhammer Ranches in the 30's when sodbusters gave up trying to farm the eastern sandhills, considering the land to be a worthless desert. Max and Julius saw the value of the sandhills for grazing and were determined to make it through the hard times.

Julius's son, Jim, joined the operation after WWII. Jim started the registered Angus herd in 1960. He was an early believer in performance

testing, AI, crossbreeding, and many other innovations. Jim was recognized as the Seedstock Producer of the Year by the Beef Improvement Federation in 1979. Wagonhammer is currently owned and managed by Jim's son, Jay and his family including his wife Susie, sons Mitch and Alex, daughter Hilary and her husband Ryan Opdahl and granddaughter Willa. Jay serves in numerous leadership positions in the community and is a past president of the Nebraska Cattlemen.

The Wagonhammer operation is currently comprised of 800 registered Angus cows, 150 registered Charolais cows and 1,500 commercial cows between three ranches in Bartlett, NE; a 5,400 head feedlot in Albion and 1,300 irrigated crop acres between the locations.

Wagonhammer's greatest strength is its team of people and the tireless effort and extraordinary talent they bring to the organization. Joe Epperly oversees genetics and sales for the registered and commercial herds. Bret Schlenger serves as the Ranch Manager overseeing all ranch operations Don Kahl, Al Snider, Steve Growcock, Tim Norrell, Matt Kurpgewit, Zane Patrick and Tedd Mayer are the team that makes up the backbone of the three ranches. At Albion, Arlyn Wilke serves as the Feedlot Manager with, Jim Beal, Taylor Nelson, Fernando Flores, Jon Hall, Ronnie Grass makes up the rest of his team. Mary Jo Stark is the Office Manager for the entire operation.

Wagonhammer strives to produce cattle that are balanced in all the important traits that affect the bottom line. Their ideal cattle are animals that

The Wolf Family

have adequate growth, but not more that their environment can support. They must be structurally correct, have generations of maternal bred into them, have good dispositions, be positive for carcass traits, yet maintain fleshing ability and fertility. Calving ease continues to be our hallmark as over two thirds of the bulls produced are recommended for heifers. Total Performance is more that a slogan at Wagonhammer, it's a program.

Wagonhammer conducts its annual production sale the 3rd Wednesday in March. This year we will host our first ever female sale November 18th at the ranch in Bartlett. Visit our website, www.wagonhammer.com, or friend us on Facebook.

Jay and Susie Wolf and the Wagonhammer crew welcome everyone to Albion on September 27th for an afternoon stop.

2022 NEBRASKA ANGUS TOUR - NORTHEASTERN REGION

2005, Mark and Aliscia Benes established Gateway Genetics with Mark's brother and his wife. They marketed show cattle and breeding stock. In 2010, Mark and Aliscia purchased their neighbor's Simmental herd that also consisted of a few Angus cows. Much success came from that herd showing and marketing Simmental and Sim-Angus genetics on a national level, winning both the Purebred and Percentage Pen of Three Bulls at the National Western Livestock Show. It was 2017 when the decision was made from Mark and Aliscia to split from Gateway Genetics to form Circle B Livestock LLC. With having Simmental cows more Angus cattle were incorporated in the herd along with the horses and dogs. The company currently runs a little over 100 registered cows and puts in 30-50 embryos each year. Circle B Livestock LLC is made up of and strives to develop balanced, functional registered cattle, cutting horses, and working border collies.

At Circle B Livestock LLC, they take advantage of marketing their animals on the internet. They have an online show calf sale in September that is focused more for the junior exhibitors. They have an online female sale in December and the bulls they sell are displayed at the Boone County Fairgrounds the last weekend in February and are marketed through an online bull sale.

As for goals they try to keep their goals simple. They want to produce and develop the most fault free, functional cattle with a balance of maternal and carcass traits. They want to be in "it" for the long haul by establishing an operation that can produce a successful herd that can be handed down to the next generation.

Please check out Circle B Livestock LLC at the Albion dinner stop on September 27th. They look forward to visiting with you!

SCOTT ANGUS Albion Stop

In the heart of Nebraska with rich farm ground and lush native pastures, in the beautiful Cedar River Valley, Scott Angus Cattle can be found. The family of Marlin and Kelly Scott, A.J. and Abby Ropers, and Sam and Stephanie Scott welcome you to this year's Nebraska Angus Tour!

Located near Belgrade, Nebraska, Scott Angus Cattle have been in the business for 40 years. Leonard Scott first settled there in the 1930's where he raised and sold plow pulling draft horses. He started out with a small herd of Herefords and was one of the first to bring irrigation to Nance County. Ron Scott (Leonard's son) continued the commercial cattle business and farm operation which has now been in succession for over 80 years. Marlin (Ron's son) and wife Kelly started an AI program in the 1980s. They purchased top end cleanup bulls to keep bettering their herd and eventually created one of the leading commercial recipient herds in the nation. They started out using their recipient herd for Schaff Angus Valley, Assman Land & Cattle, and Baldridge Brothers. From there they went on to raise many well-known SAV ET bulls: Predominant, Bismarck, President, Rainfall, Quarterback, Elation, Bloodline, Scale House, Riptide, and Jesse James to name a few. After 2014, Marlin and Kelly's daughter Abby and her husband A.J. Ropers and their son Sam and his wife Stephanie Scott joined the ranch operation. They invested in cow/calf pairs and purchased additional pasture ground and dry land acres. Currently, all three families manage the ranch together that is home to 100 registered and 350 commercial Angus cattle.

As for their breeding program, Scott Angus Cattle AI the virgin heifers and registered cows. They utilize their commercial cows as embryo transfer recipients and calve from December to March. The genetics used predominantly are SAV herd sires, but this year they introduced Sitz Angus sires as well. The operation currently offers private treaty sales for registered cows, virgin heifers, bred heifers, late bred cows, and yearling bulls. Commercial calves are weaned in the fall. Heifers are evaluated for herd replenishment or sale, and steer calves are marketed.

The short-term goals for the operation include looking to improve the registered herd by their elite female purchases in the last couple years. Sitz Pride 200B (Stellar's Dam), WMS Blackcap May 9010 (2397 daughter), SAV Blackcap May 4574 (flush sister to Regard), Baldridge Pratissa J932 (Pappy daughter), and Linz Lady 116-8213 (890 daughter) were added with the future in mind by creating a trifecta of Sitz, Schaff, and Baldridge progeny. They plan to continue the embryo project with SAV to raise quality bull and heifer calves. Following this goal, they hope in time to hold their own annual bull and female sale for Scott Angus Cattle and build a strong foundation that can be succeeded by future Scott generations.

They welcome all interested visitors to their ranch to come see their herd and weaned calves. See you on the tour in Albion!

Angus breeders engage in premiere education at Beef Leaders Institute (BLI)

Young Angus breeders gather for a week of producer education and development.

Twenty-six American Angus Association® members from across the country attended the 2022 Beef Leaders Institute (BLI) June 13-17. The annual event is hosted by the American Angus Association and funded by the Angus Foundation and Certified Angus Beef® brand (CAB®). BLI provides Association members the opportunity to experience the beef value chain from pasture to plate.

"We look forward to this event

Twenty-six American Angus Association members from across the country attended the 2022 Beef Leaders Institute June 13 to 17. BLI provides young Association members the opportunity to experience the beef value chain from pasture to plate. Attending from Nebraska were Janessa Sawyer, TelRae Sherman, and Margo Lehn. (Courtesy photo.)

each year," said Kara Lee, director of producer engagement for CAB®. "BLI provides a unique opportunity to explore all facets of the beef industry, while also learning from and forging connections with fellow attendees."

Participants began the week at the American Angus Association in St.

Joseph, Missouri. While at the breed's headquarters, attendees met with staff to learn about the many departments and programs housed within the Association. Several Association employees offered insights, including Mark McCully, American Angus Association chief executive officer,

Kelli Retallick-Riley, Angus Genetics Inc. (AGI®) president and Brett Spader, Angus MediaSM president.

Following their time in St. Joseph, attendees visited Tiffany Cattle Company in Herrington, Kansas. Here, Shane Tiffany, Tiffany Cattle Company co-owner, explained the intricacies of cattle feeding and marketing. Attendees learned how their decisions, specifically as seedstock producers, can influence cattle's performance in the feedyard.

For the second portion of the trip, the group traveled to Ohio to continue studying the beef value chain. Participants explored the impact of genetics in the beef industry at Select Sires, and the role value-added products play in marketing CAB® at Hudson Meat Company. The final days of the experience were spent at the CAB® brand headquarters in Wooster, Ohio.

In Wooster, attendees were welcomed to The Culinary Center by John Stika, CAB® president. From a virtual packing plant tour to a hands-on beef fabrication demonstration in the meat lab, participants followed the entire process of putting a CAB® steak on the dinner table. During a week fully immersing themselves in the industry, the BLI class realized how the cattle they raise influence the industry well beyond their pasture.

"Educational opportunities like Beef Leaders Institute are incredibly valuable for our members," said Jaclyn Upperman, Angus Foundation executive director. "We are proud to support programs that build strong leaders for the Angus breed."

Providing continued education for the Angus membership is a priority for the Association. BLI is designed to

provide members ages 25 to 45 with the resources to understand all segments of the beef industry. Attendees leave equipped as stronger, more effective leaders for the Angus breed and beef industry. For more information on BLI and applying to be

part of the Class of 2023, visit www.angus.org/Event/BLIEntryForm. Look for the 2023 application to be available in early November.

NEBRASKA ANGUS ASSOCIATION HEIFER RAFFLE SCHOLARSHIP APPLICATION

The Nebraska Angus Association offers this scholarship to youth involved with the Angus breed through the contribution of a heifer donated by a current Nebraska Angus Association member. The drawing for the heifer takes place at the annual Nebraska Angus Tour. Raffle tickets are sold with all proceeds going to the scholarship fund. This program was started by George Marcy of Marcy Livestock. He wanted to work with the Nebraska Angus Association to start a program to pay it forward to our younger cattle producers. When he was young he had received a heifer from a raffle like this that helped him start his own herd. That is our hope with this program to help pay it forward to our younger generation.

Heifer Donor for 2022: Wagonhammer Ranches, Albion, Nebraska

- Scholarship will be awarded during the Nebraska Angus Association Banquet held December 3rd in Kearney, Nebraska. Banquet starts at 6:00 PM (CT)
- Send applications by November 1st, 2022 to Margo Lehn at the Nebraska Angus Association office by emailing to info@nebraskaangus.org or mailing to PO Box 245, Long Pine, NE 69217 (If sending by email please call and confirm that it is received)

Requirements:

- You or your family is a current member of the Nebraska Angus Association
- Resident of Nebraska
- A graduating high school senior or current undergraduate/graduate student

Applications can be found at WWW.NEBRASKAANGUS.ORG

or contact Margo Lehn • Secretary/Manager • 402-760-0386 • info@nebraskaangus.org

Angus Women Connect, Engage and Empower

*The American Angus Auxiliary's hosted sixth
biennial Angus Women Connected
Conference*

More than 30 women gathered at the Elms Hotel & Spa in Excelsior Springs, Missouri, to network, learn and celebrate their passion for Angus cattle at the American Angus Auxiliary's biennial Angus Women Connected Conference.

"The main goal of Angus Women Connected Conference is to bring together a group of people that share a common bond of Angus cattle, from across the United States," said Anne Lampe, chairman and conference coordinator of Women Connected. "It allows them to form a network and experience educational workshops while feeling engaged and empowerment."

Attendees kicked off their stay at the Elms Hotel with an opening reception where there were door prizes, a tasty meal and keynote speaker, Courtenay DeHoff, spoke about her social movement, Fancy Lady Cowgirl™.

The following day, several American Angus Association and industry experts presented to participants. Thomas Marten, former Angus Foundation Executive Director, gave an update on happenings with the Foundation and how they often work hand-in-hand with the Auxiliary. Jaclyn Upperman, newly appointed Angus Foundation President and former Director of Events and Education, stressed the immense value of youth programs and the exciting things to come for junior members. AngusMedia™ presented various advertising trends and marketing options available through AngusMedia.

FEBRUARY 26, 2023

*2022 Angus Women Connected Conference attendees at the Elms Hotel & Spa in Excelsior Springs, Missouri March 23-25.
In attendance was Heather Smith. Co-owner at SC Cattle of Osceola, NE and President of the Nebraska Auxiliary.*

After lunch, Kara Lee, Assistant Director of Producer Engagement for Certified Angus Beef®, lead an educational activity about the demand for Certified Angus Beef®, balanced trait selection and the value of each primal cut. To wrap up the educational sessions, Kirsten Angell, RD, LD, CDCES, a registered dietitian and diabetes care and education specialist, helped attendees recognize the importance of nutrition, physical activity and mental health.

Later that evening, the women enjoyed a social with a meal and wine making presentation at Van Till Family Farm Winery.

The conference concluded the following day with a tour of the

Association headquarters in St. Joseph, Missouri. Attendees met with representatives of Angus Genetics Inc., the member services department and AngusMedia to learn the inner-workings of the Association.

Through the generous support of the Angus Foundation, the conference, lodging and meals are at no cost to participants.

ANGUS. ONLY ANGUS.

There's only one DNA profile created specifically for Angus cattle.

Angus GS™ is the new standard in genetic testing for Angus cattle. Created by Angus Genetics, the profile is purely Angus DNA. So it will have better predictability and deliver more power and accuracy than any previous generation genomic enhanced EPD, and at greater value. Visit angus.org/agi for the test that only Angus Genetics could create.
