SPRING ISSUE 2024

RAISE THEM STRONG.

TRUE BLUE NUTRITION FOR ANY CONDITION.

Healthy newborn calves and improved conception rates start with cow herd nutrition. Vitalix tubs are the ideal delivery system to provide essential nutrition for calving. Vitalix uses technologies that are proven to improve colostrum quality, calf health and immunity, all while supporting the mother cow now, and more offspring to come.

“The Lineup”

Photo by Abe Kuck • Bertrand, NE

The New Year came in with a strong force of frigid temperatures, wind, and snow in areas, and was a very long January, but since then the snow has melted and everyone has been sporting those lovely muck boots. We all have to remember that these times are temporary and it only means greener pastures and thick meadows later on!

The spring time is a very busy time for producers, sales representatives, and anyone involved in agriculture. Since the end of January, there has been a bull or female sale just about every day during the week and it will not slow down until after the first week in April. As of right now bull sale averages are really solid averaging around that \$6,000 or more per head. Female sales have no signs of slowing down either as the industry builds back the cow herd and regains those production numbers. The dollars our commercial cattlemen are receiving now are getting closer to where they need to be to offset those horrendous inflation costs to operate, but they are not there yet with all the increases in taxes, feed, fuel, vaccines, and more. We all hope those sales dollars can continue to rise for the commercial cattlemen in the future and to help keep those cattle in the industry. The Nebraska Angus Association is here to help anyone that may need assistance in marketing their cattle and operation to try and offset those expenses and give them the highest dollar at market.

In this issue you will find writeups about the new Nebraska Angus Queen and Princess. These girls are amazing and have great heads on their shoulders and are very passionate about the Angus breed. We welcome you all to reach out to say hello and show your appreciation for their dedication and hard work. These girls are amongst many young individuals who will represent and educate, not only the Angus breed, but the cattle industry as a whole in the future.

Also, in this issue on the inside back cover page you will find information about this year’s Nebraska Angus Tour scheduled for September 20th and 21st. The tour is shaping up to be very exciting and fun with multiple breeders participating, great special interest stops, and more! Note that the annual meeting and banquet for the adult association has been moved to the tour event from December. This move was made to see if the events can complement one another and make it better for the membership to attend both. The fairgrounds at Crete will serve as our final stop on the tour and we will have cattle on display, the annual meeting, heifer raffle drawing, banquet, door prizes, and fellowship. Keep watching our website www.nebraskaangus.org, and go over and like our Facebook page: Nebraska Angus Association to see more information as it becomes available!

As the spring rolls on I hope you have successful calving and production sales, and can find help during branding and getting cattle to grass. Before you know it, we will all be gearing up for grilling season and the hot weather!

Sincerely,

Margo Lehn

PRESIDENT SPEAKS

By: Brian Stoller, NAA President

Opportunities for Angus Staying in the Driver's Seat

What exciting times we are in! Cattle markets are at all time highs, and the experts say it's going to get even better.

At the popular CattleFax Outlook Seminar, held as part of the 2024 Cattle Industry Convention and NCBA Trade Show in Orlando, Florida, in late January, market analysts shared that the smallest beef cow inventory in the last 50 years, coupled with historically strong demand, led to the highest average fed cattle and calf prices in 2023. As reduced cattle numbers and beef production continue over the next three years, leverage and profitability will continue to favor cattle producers.

Specifically, Mike Murphy, CattleFax chief operating officer, forecasted the average 2024 fed steer price at \$184/cwt., up \$9/cwt. from 2023. All cattle classes are expected to trade higher, and prices are expected to continue to trend upward. According to CattleFax, the 800-lb. steer price is expected to average \$240/cwt., and the 550-lb. steer price is expected to average \$290/cwt. Utility cows are expected to average \$115/cwt., with bred cows at an average of \$2,600/head.

Higher cattle prices and reduced feeding costs will continue to improve margins for cow-calf producers for the next several years, a much-needed improvement to drive expansion of the U.S. cowherd as weather patterns allow, according to CattleFax.

In preparing for those forecasts to come to fruition, Angus breeders and users of Angus genetics have great opportunities to realize the maximum

profit from our current and future calf crops. We are fortunate that the great state of Nebraska has some of the very best genetics available in our breed – and these cattle are backed by some of the best cattle people in America.

As we move toward spring and bull buying season and breeding season, I want to remind breeders of the importance of investing in and upgrading our genetics. Like buying a good truck or improved piece of farm equipment, quality genetics of bulls and females are an investment that typically pays dividends for years to come. And, I'll point out that the cull market is pretty strong right now, so you can also capture value for the cattle that you are replacing.

Best of all, Angus genetics are diverse with a large population and many breeders who offer an array of genetic choices within the breed. If your focus is on maternal or carcass or high growth or calving ease for heifers or a combination of all, you can find the traits that you want and need. It's all available in the Angus breed. So, let's keep Angus strong and in the driver's seat as we move toward this upward trend in the market and continue to produce the best Angus beef for consumers.

Sincerely,
Brian Stoller

NE AUXILIARY PRESIDENT SPEAKS

By: Aliesha Meusch, NE Angus Aux President

Hello Angus Family,

I hope you all fared as well as you could during the winter storms in January and are looking forward to all the calving, bull sales and shows this Spring will bring!

Our officer team met in February to debrief from our December events, plan for NCC: The Classic and look ahead to the rest of the year. We look forward to interacting with you all at various events and promoting the Angus breed. The Auxiliary will be attending NCC: The Classic in February to support the Angus consigners. We will be passing out goodie bags again to exhibitors while wishing them good luck on their show and sale endeavors.

Don't forget to join our 'group' on Facebook to get the most current information related to meetings and events! If you are not on Facebook, please reach out to an officer for more information and to get on our email list. At our meetings, we strive to move them around the state, while also doing an educational opportunity. The Auxiliary works to support the Nebraska Angus and Junior Angus Associations at various shows, often providing goodies and good luck.

Our next meeting for the membership will be held via Zoom in April. Please watch our Facebook group and your email for more information! We plan to hold an in-person meeting in June, somewhere in the central region of the state.

The Nebraska Angus Auxiliary is growing and we want you to be a part of it! Reach out to myself or any of our officer team to become a member. We look forward to a great year and supporting our Angus family across the state!

Here's to a great calving and bull sale season!

It's Spring Angus Friends!

Wowzer...is anyone glad it's spring? Despite facing significant challenges during this calving season due to unpredictable weather, the unseasonably harsh conditions tested our resilience to say the least. However, the much-needed moisture that accompanied these challenges ultimately proved to be a crucial benefit, providing essential hydration to our pastures and cropland. As I reflect on this season's dual nature of adversity and reward, I acknowledge the importance of adaptability in agriculture and remain committed to learning from these experiences for the continued success of our industry. I'm excited for my first year of college to wrap up and for summer to begin, which means the juniors show season is firing up.

Spring comes with several important dates for Angus juniors. If you're looking to apply for scholarships, keep in mind that the Nebraska Angus Association's deadline is March 15th, and the CAB/NJAA and Angus Foundation scholarship applications are due by May 1st.

I wish all Angus juniors the very best as they showcase their projects in upcoming shows this spring! I'm eagerly anticipating this year's State Show in Broken Bow from May 31 to June 2. Keep an eye out for the soon-to-be-emailed entry form. Remember, the State Show entry deadline is May 15th. Additionally, the deadline for submitting applications for the 2024-2025 NeJAA officer positions is also May 15th. I encourage all juniors to contemplate taking on an officer role. Leadership is attainable for everyone, regardless of your comfort level or confidence. I've personally experienced this transformation through my roles in the Nebraska Junior Angus Association, evolving from an introverted, task-focused worker to an outspoken, confident leader. Embrace this rewarding leadership opportunity!

The National Junior Angus Show will be held in Madison, Wisconsin on June 29 - July 6, 2024. The NJAS and PGS ownership and early entry deadline is May 15th. Don't forget, May 25th is the last day to enter NJAS contests, including photography, writing, cook-off, and graphic design. Our state plans for the 2024 NJAS, Showdown in Madtown, will be finalized at our membership meeting at the State Show in Broken Bow on June 1st.

Thank you to Bredemeier Angus Farms for purchasing the premium spot on the back of the 2024 NeJAA t-shirt that was auctioned off at our semen auction in December. We are once again excited to sell additional logo spots on the back. If you are interested in purchasing a logo spot, contact Tucker Stagemeyer or Tavin Uden as soon as possible.

As always, please watch the Nebraska Junior Angus Association Facebook page for announcements, updates and important information.

Respectfully,

Addison Cotton
addisoncotton0@gmail.com

2024 Nebraska Jr. Angus Show

June 1-2, 2024

Fairgrounds – Broken Bow, Nebraska

May begin arriving any time on Friday, May 31, 2024

Cattle Check-in: Saturday from 9-noon (cattle must be on the grounds and checked in by noon)

National Team Contests Saturday afternoon (fitting, sales, quiz bowl)

Junior Meeting Saturday Afternoon

Family Picnic on Saturday at 7:00 p.m.

Show Begins Sunday, June 2, 2023 at 9:00 a.m.

Early Entries & Early Entry Fees due May 15, 2024

Bedding will be provided in the barn. Tie outs will be available; you will need to provide your own bedding for tie outs. Straw is allowed in tie outs. The Nebraska Junior Angus Show is a “No Fit” show defined as exhibitors may NOT use glue, adhesive, foam, coloring or paint products. Oils and “Kleen Sheen” type products are allowed. No stomach pumping or artificial fillers allowed.

A. ELIGIBILITY OF EXHIBITORS AND ENTRIES

1. Exhibitors must be members of the NeJAA and must be between the ages of 8-21 as of January 1 of the current year. Junior membership shall be issued only to an individual and shall expire upon attainment of age 21. Participation is acceptable through the calendar year of the individual’s 21st birthday.
2. Animals must be registered in the name of the exhibitor.
3. Eligibility of entries will be determined by age and the National Junior Angus Association show classification.
4. Exhibitors in the bred-and-owned categories must be the breeder and first and continuous owner of the animal entered.
5. Exhibitors may show up to six entries in the owned heifer category and up to four entries in the steer category. They may also show as many bred-and-owned bulls, bred-and-owned heifers, and cow-calf pairs as they wish.
6. Must present original certificate or electronic registration at check-in. All tattoos must be legible.
7. The show will be blow and go.
8. The ownership deadline for the State Angus Show shall coincide with the National Junior Angus Show, May 15th, 2024.

B. CLASSES

1. The classes will be the same as recommended by the National Junior Angus Association. There will be classes for bred-and-owned heifers, bred-and owned bulls, owned heifers, phenotype/genotype heifers, registered steers, cow/calf pairs, and predominantly black hided crossbred steers and heifers. There must be at least 5 or more head to have a separate bred and owned division.
2. There will be an additional class for best pair of heifers. Both heifers must be shown by the same exhibitor on show day to qualify as a pair.
3. There will be a Supreme Champion selected from the Champion owned heifer, bred-and-owned heifer, cow-calf pair, and bull.

C. SHOWMANSHIP

1. Showmanship classes will be divided according to age as of January 1 of the current year following the National Junior Angus Association’s age divisions for contests. The Junior Division: 13 and under, Intermediate Division: 14-17, and Senior Division: 18-21. To be eligible for showmanship contests, participants must be exhibiting an animal at the show.

Unless otherwise stated, National Junior Angus Show rules apply.

PARTICIPATING IN NATIONAL SHOWMANSHIP CLASS:

Two contestants will be selected to represent Nebraska at the National Junior Angus Show from a specified NJAS showmanship class at the State Junior Show. To represent Nebraska at the National Showmanship contest, the exhibitor must be a Junior or Life Member of the Nebraska and American Angus Association, an active member of the Nebraska Junior Angus Association. All fees must be paid before entering the contest. Contestants by entering agree to abide by the NeJAA and NJAA rules.

•Active Member being defined as having participated in state, regional, or national Angus shows/activities in one of the past two years, current year excluded.

Mail Entry Form and Payment to:

Nebraska Jr. Angus Association • Kacey Dethlefs, Sec/Treasurer • 514 Milan Ave • Ravenna, NE 68869 • Cell: 308-520-8074

NEBRASKA ANGUS QUEEN SPOTLIGHT

NEBRASKA ANGUS QUEEN

Addi Crouse

The Nebraska Angus Association would like to introduce to you our 2024 Miss Nebraska Angus Queen, Addi Crouse. Addi has grown up on her family farm that is located nine miles west of Fullerton, Nebraska. Currently, they farm and raise commercial and registered cattle. She is the daughter of Jim and Melissa Crouse and has one brother Briggs, who is 10 years old. When asked what made her decide to try and become the next Nebraska Angus Queen she replied with "Considering my lifelong involvement with the Angus breed and the influence of my parent's dedication to the breed, it was natural for me to be drawn to the role of the Nebraska Angus Queen. I have always looked up to the Angus queens and prayed one day I would become one due to all the connections and networking it provides for the Nebraska Angus Association and myself."

Addi's path in the Angus business started when she was old enough to show. From then she knew it was something that she wanted to continue to build. "The Angus breed holds a unique place in my heart due to its quality traits and the dedicated community that surrounds it. Growing up, Angus cattle were a big part of my parent's lives, just like they are mine. My mom especially loved showing them, a tradition that I'm proud to carry on. I have been a part of the Nebraska and National Angus Associations ever since I started showing Angus Cattle" commented Addi. Addi has also been an active member of 4H and FFA. Aside from cattle, Addi is a member of the Fullerton show choir, track and field, volleyball, school choir, and student council.

When asked what has been her favorite part of being Queen so far, Addi responded with "My favorite

part so far has been, being crowned and all of the recognition I've been receiving. It's an amazing foundation for meaningful relationships with both juniors and producers. Another favorite part has been planning the year with all the

shows and sales that I will be attending with Mckinley Stoller by my side!" She also commented her advice to any girl looking to be the next Nebraska Angus Queen, "My advice is to

embrace every opportunity with courage, trust in your journey, don't dwell on the past, and let your confidence banish any fears. Your resilience and faith will guide you!"

The future goals Addi has set for herself are to stay involved in the Angus industry and continue to strive to make a difference in the Angus community. She wants to focus on enhancing understanding of the beef industry, especially amongst youth. She feels she can use her position to inspire others to consider careers in agriculture and help foster the next generation of leaders. She believes that the future of the industry lies in the hands of our youth, and as Nebraska Angus Queen she has the platform to make a real impact. Addi plans on attending the University of Nebraska-Lincoln after graduation next year to study something within the agricultural field. She also would like to serve on the university's livestock judging team. After college she plans to continue her family's cattle business and work in reproduction in the beef industry.

If you would like to meet Addi or have her attend your upcoming production sale, annual events, or just invite her to your place for a visit please contact the Nebraska Angus Association office!

NEBRASKA ANGUS PRINCESS SPOTLIGHT

NEBRASKA ANGUS PRINCESS

Mckinley Stoller

For the second time in the Nebraska Angus Association Royalty program, we would like to introduce to you our Miss Nebraska Angus Princess, Mckinley Stoller. Mckinley resides near Palisade, Nebraska on the Bear Mountain Angus Ranch where she has been involved in the Angus breed her entire life. Mckinley's dad, Brian Stoller, the current Nebraska Angus President started Bear Mountain Angus in California as his 4-H project with his parents Gary and Davy. He expanded his operation in California, moved to Idaho and met Mckinley's mom Tiffany, and they ranched there before moving to Nebraska in 2008. Mckinley commented that her dad is the one who has pushed her to get to the point of where she is today, her mom is the hardest working person she knows, and her sister Reagan is the one whose footsteps she wants to follow. "Reagan has gotten so far and has been one of the best role models to me" she said. Mckinley currently is a 7th grader at Wauneta-Palisade. Mckinley is a 3rd generation Angus breeder and has been involved in a lot of Angus events. When asked what Angus events she has been involved in throughout her life she replied with "I have been involved in so much throughout my life. The first Angus show I attended was the Nebraska Angus Winter Show when I was one week old. I have been to a lot of Angus shows and am so blessed to be in the Angus breed. I have also been involved in 4-H, FFA, church, and the Nebraska Junior Angus Association. I am so grateful for the opportunities that have been given to me."

Since the Nebraska Angus Association Princess is a newer opportunity for our youth, Mckinley was asked what made her decide to try and become the next Nebraska Angus Princess and she replied with "I have always wanted to be the Angus Queen. I have grown up watching my sister and all the opportunities she got. She was the Nebraska Angus Queen and I always wanted to help her at the shows she

did. I was so excited when I saw there was a Nebraska Angus Princess program."

So far as princess Mckinley has been able to help at the Nebraska Junior Angus Winter

Show, National Western Stock Show, and plan for this year's events. When asked what her favorite part of being Princess has been so far, she said "I enjoyed going to the National Western Stock Show. Getting to represent the Angus breed was an amazing experience. I was able to assist in handing out ribbons with a

very special person, Lauren Wolter, the Miss American Angus Queen. It was a really cool experience. Another part I have enjoyed is getting to work with so many great people in the Angus breed and getting to talk to the kids. I enjoy encouraging them to stay in the Angus breed and telling them about what being the Nebraska Angus Princess is like and the jobs it entails." She also commented her advice to any girl looking to be the next Nebraska Angus Princess is "Just go for it! I think you always need to have confidence. My family has taught me to have confidence in everything I do. I think you will get as much out of it as you put into it."

The passion for the Angus breed as you can see is huge for Mckinley and she has set goals for herself. Her biggest goal is to run for the National Junior Angus Association board. She mentioned she has watched her sister go through the process and thought it was so cool. "Getting the opportunity to run for the board of directors would be so fun", she commented excitedly. Representing the Nebraska Angus Association as princess, being involved in the Nebraska Junior Angus Association, and someday hopefully being on the board of directors for the National Junior Angus Association provides Mckinley with many more opportunities in the Angus breed in the future.

If you would like to meet Mckinley or have her, try and attend your upcoming production sales, events, or just invite her to your place for a visit please contact the Nebraska Angus Association office!

NEBRASKA CHAMPIONS

Grand Champion Carload of Bulls:

Krebs Ranch, Gordon, Neb., won grand champion carload of bulls at the 2024 National Western Stock Show's Angus Pen and Carload Show, Jan. 13 in Denver, Colo. The 10 January and February 2023 bulls posted an average weight of 1,307 pounds and posted an average scrotal circumference of 37.7 centimeters. They are sired by KR Splash 8903F, TR Sully 0073H, Connealy 1 Beam, Kraye Big Country 0179, Panther Cr Incredible 6704, KR Rally 9064, 8N Academy 2101 and LAR Man In Black. Adam Sawyer, Bassett, Neb.; Doug Stevenson, Laurel, Mont.; and John Toledo, Visalia, Calif., evaluated the two carloads and 22 pens. Photo by Legacy Livestock Imaging.

Kacey Dethlefs and JessaLynn Hudson earns Junior Bronze and Silver Awards

Kacey Dethlefs, Ravenna, Neb., has earned the National Junior Angus Association's (NJAA) Bronze and Silver awards, according to Caitlyn Brandt, events and junior activities director of the American Angus Association® in Saint Joseph, Mo.

Dethlefs is the 20-year-old daughter of Craig Dethlefs and attends the University of Nebraska-Lincoln, where she studies Animal Science. She is a member of the NJAA and the Nebraska Junior Angus Association, where she served as secretary.

She has participated in local and national shows and showmanship contests. At the National Junior Angus Show (NJAS), Dethlefs participated in the team fitting, quiz bowl and poster contests and the All-American Certified Angus Beef® Cook-Off. She also participated in the mentoring in 2013 and 2014. She was a participant in the Raising the Bar Conference in 2018 and 2019 and attended the Angus Convention in 2018.

Dethlefs has submitted weight data to the Angus Herd Improvement Records (AHIR®).

JessaLynn Hudson, Belvidere, Neb., has earned the National Junior Angus Association's (NJAA) Bronze and Silver awards, according to Caitlyn Brandt, events and junior activities director of the American Angus Association® in Saint Joseph, Mo.

Hudson is the 18-year-old daughter of Gina Hudson and attends the University of Nebraska-Lincoln, where she studies agri-business. She is a member of the NJAA and the Nebraska Junior Angus Association.

She has participated in state and national shows and showmanship contests. At the National Junior Angus Show (NJAS), Hudson participated in the Skill-A-Thon and livestock judging contests and the All-American Certified Angus Beef® Cook-Off. She also participated in the mentoring program from 2016-2018.

Hudson has submitted DNA samples for Genomic Profile Testing through Angus Genetics Inc. (AGI).

Grand Champion Pen of Three Bulls

Krebs Ranch, Gordon, Neb., won grand champion pen of three bulls at the 2024 National Western Stock Show's Angus Pen and Carload Show, Jan. 13 in Denver, Colo. The January 2023 bulls posted an average weight of 1,348 pounds and posted an average scrotal circumference of 36.8 centimeters. They are sired by SITZ Incentive 704H, Connealy Hayday and KR Splash 8903F. The trio earlier won early calf champion. Adam Sawyer, Bassett, Neb.; Doug Stevenson, Laurel, Mont.; and John Toledo, Visalia, Calif., evaluated the two carloads and 22 pens. Photo by Legacy Livestock Imaging.

The Bronze and Silver awards are the first two levels of the NJAA Recognition Program that began in 1972. Junior Angus breeders must apply for the awards, then meet point requirements in many areas of participation before receiving the honors. Applicants are evaluated in areas of junior Angus association activities and leadership, participation in showmanship, contests and shows, using performance testing to improve their herd and their progress in producing and merchandising Angus cattle.

The NJAA promotes the involvement of young people in raising Angus cattle, while also providing leadership and self-development opportunities for the nearly 4,500 active members nationwide.- *Written by Amber Wahlgren, Angus Communications*

FERGUSON ANGUS Building Better Beef Ferguson Angus uses data-backed decisions

Lynn and Lori Ferguson rely on data as they make management decisions for their herd.

first registered Angus cattle in 1972 and hasn't looked back.

In the early 1980s, he started an AI program, which he continues to run today.

Ferguson is a self-described numbers guy, with data playing a key role in his operation.

"I have been very excited about the Angus GS data that DNA generates and the value and accuracy it adds to the performance EPDs," he said.

Angus GS is a genomic selection tool from Neogen, built specifically for Angus cattle in partnership with the American Angus Association.

Ferguson's selection process isn't something he takes lightly, and the Angus GS data is just one small part of it.

The first two selections of the sale bulls are done during weaning. Ferguson, along with his wife and nephew, assess each and every bull both visually and on the scale.

If any of them determine the bull doesn't meet their rigorous standard, it's culled.

After weaning, they end up with an average of about 140 bulls out of 250 possible prospects. After a few weeks, the family walks the pens and makes a second cut, strictly using visual appraisal. Ferguson looks for general eye appeal, thickness, length, feet and leg structure, and disposition among other traits.

During the weaning process, DNA is collected

Ferguson Outpace

on every bull. Those that remain after the first two cuts have their DNA sent to AGI for genomic evaluation.

Once that information is returned, the family goes through the bulls a third time before finally registering those that make the cut.

Once registered, each bull's EPD gets pulled up

online for evaluation. Those not meeting Ferguson's EPD criteria are then culled as are those who don't measure up at yearling weigh time.

"The fact is, our selection process goes up to and through the penning process the morning of the sale," he said, referencing his annual bull sale.

Select Sires has previously purchased two bulls, Ferguson Breakout and

roughage ration, promoting longevity and soundness. They are never fed creep feed. They're bred for carcass merit and feedlot excellence, early growth and calving ease.

Ferguson Angus cows and heifers are synced up using the 7 and 7 protocol, and every female is artificially inseminated.

Older cows are calved at a property along the Solomon River with plenty of evergreen trees, sandhills covered with tall grass, sunflowers and 5- to 7-foot tall kochia providing excellent protection from the elements.

"That combined with the excellent mothering ability of a good Angus cow makes for a successful calving season," Ferguson said.

The 34th annual Ferguson Angus bull sale will be held Tuesday, March 26, 2024.

Ferguson Angus sells approximately 100 bulls each year. Bulls selling at the annual sale in March

Also part of the operation is Ferguson's nephew and his wife, Brice & Vicki Korobka, shown with their family.

2024 are predominantly sired by Trailblazer, Ball of Fire, Surpass, Rawhide, Thedford, Breakthrough and Papa 0100.

The coming 2024 calf crop that are due next spring will have many progeny from Ferguson Outpace, Ball of Fire, Jameson, Trailblazer, Craftsman, Surpass, Rawhide and Thedford.

Watch for details and learn more about Ferguson Angus at fergusonangus.com.

Reprinted from *Midwest Messenger*

Nestled on the plains of north central Kansas, roughly halfway between Denver and Kansas City, Ferguson Angus has stood proudly since 1946.

The family-run operation, owned and run by Lynn and Lori Ferguson as well as their nephew and his wife, Brice and Vicki Korobka, breeds registered Angus cattle and raises corn, wheat, soybeans, alfalfa, grain sorghum and forage sorghum.

"Ferguson Angus is a family operated farm and ranch who love to grow great crops and the best black Angus that genetics, technology and the environment allows," said Lynn Ferguson.

While the operation was started by Lynn Ferguson's parents, Ferguson bought his

Ferguson Trailblazer. Semen from both bulls are sold both domestically as well as in international markets.

Bulls at Ferguson Angus are developed with a high

From Our Mailbox

Thank You's

Dear Nebraska Angus members,

Thank you to all of you who have kept us in your prayers during Clint's cancer journey. We appreciate those who were able to attend Clint's services, the memorials we received and the many phone calls and notes. Most importantly thank you all for the friendships we made while in the Angus business. It's been a great part of our lives. I will miss the cows, selecting new genetics and watching the calves play and grow, but certainly won't miss night calving or trying to calve through cold weather or blizzards. Thanks for everything you've done for us.

Suzy Hebbert
 Ed and Kate Hebbert
 Joe and Makala Hebbert

Dear Nebraska Angus Association,

I wish to express my gratitude for being selected as a Heifer Raffle Scholarship recipient. I am deeply appreciative of your continued support. Proudly I earned a 4.0 my first semester of college and am determined to do the same in the second semester at Northeast Community College. This scholarship is a much appreciated gift and an

investment in my future and yours. Again, thank you very much for your generosity. With your help, I'm determined to work hard and make my dreams come true. Again, thank you.

Gratefully,
 Addison Cotton

ANGUS YOUTH SCHOLARSHIPS

Nebraska Angus Association & Nebraska Angus Auxiliary Scholarship Application Due March 15, 2024

Send to
Margo Lehn

PO Box 245, Long Pine, NE 69217

Please return by mail or email to:

info@nebraskaangus.org

(if sending by email please confirm it is received)

The Nebraska Angus Association annually offers scholarships to Angus youth. This year we are proud to announce that the Nebraska Angus Auxiliary will be partnering with this scholarship again and we will be offering \$1,250 in scholarship money. The winners will be announced at the Nebraska Junior Angus State Show. Individuals who have been awarded this scholarship in past years may reapply but no more than \$1,000 will be awarded to any one individual.

Applicant must be a Nebraska resident, current member of the Nebraska Junior Angus Association and current junior member of the American Angus Association or, if over 21, a former member of both organizations. Applicant must be a graduating high school senior or undergraduate who will be enrolling in a 2 or 4 year post high school educational program in the coming year. Applicant's parents must be members of the Nebraska Angus Association.

Angus Foundation scholarship applications open now

Youth can apply for Angus Foundation
scholarships until May 1.

Scholarship applications are now available for college students involved with the Angus breed. The Angus Foundation awarded more than \$358,000 in scholarships

in 2023 alone. The Foundation offers scholarships to undergraduate, graduate and trade school students each year to help Angus youth achieve their educational goals and offset the rising costs of tuition. Applications are due May 1.

"The Angus Foundation's scholarship program is one of the most prominent and consistent ways our donors support Angus youth," said Jaelyn Boester, Angus Foundation executive director. "Our scholarships pave the way for a bright future for our industry by ensuring young people have the opportunity to reach their full potential."

The Angus Foundation undergraduate and graduate scholarship applications are available to National Junior Angus Association (NJAA) members through their American Angus Association® login, similar to the National Junior Recognition Program Bronze and Silver award applications. The Foundation's Certified Angus Beef®/National Junior Angus Association and commercial cattlemen scholarships will still be accessed at *AngusFoundation.org* and submitted through email.

"Angus Foundation scholarships have provided incredible support as I have furthered my education," said Marcie Harward, National Junior Angus Board Foundation director and past scholarship recipient. "I'm grateful for my involvement in the Angus breed and its investment in the success of juniors like me."

Since 1998, the Angus Foundation has awarded more than \$4.5 million in undergraduate and graduate scholarships. For more information about the Angus Foundation and its scholarship program, visit *AngusFoundation.org*.

Undergraduate and Graduate Scholarships

Applicants for undergraduate and graduate scholarships must have, at one time, been a member of the NJAA and currently be an active junior, regular or life member of the American Angus Association®. The following documents are required to be considered for a

2024 undergraduate or graduate scholarship: the 2024 scholarship application; three letters of recommendation; a copy of current high school/college/university transcript; and the applicant's Association member code.

Access to Application: AAA login (www.angusonline.org/Account/Login), "Programs" tab

Submission: Through AAA login

Deadline: May 1, 2024

Certified Angus Beef®/National Junior Angus Association Scholarship

Since 1990, the NJAA has teamed up with Certified Angus Beef® (CAB) to help Angus youth pursue their higher education goals. The selected applicant will receive a \$1,500 scholarship. A separate application from the Angus Foundation scholarship application is required for the CAB/NJAA scholarship.

Access to Application: Download application at *AngusFoundation.com*

Submission: Email to scholarships@angus.org

Deadline: May 1, 2024

Commercial Cattlemen Scholarship

The Angus Foundation will award four \$1,500 scholarships to undergraduate students who use Angus genetics in a commercial cattle operation's breeding program or whose parents use Angus genetics. Emphasis will be placed on applicants' knowledge of the cattle industry and perspective of the Angus breed. The applicant or their parent/guardian must have transferred or been transferred an Angus registration paper in the last 36 months (on or after May 1, 2021) and must be considered commercial and not seedstock in their operation. The scholarship applies to any field of study.

Access to Application: Download application at *AngusFoundation.com*

Submission: Email to scholarships@angus.org

Deadline: May 1, 2024

2024 Auxiliary Scholarships Available for Junior Angus Members

The American Angus Auxiliary scholarships are presented annually. The total amount awarded will vary. Ten (10) scholarships will be awarded. The exact amount of the first, second, third, fourth and fifth place awards given to both male and female qualified applicants will be determined by May 1, 2024. Scholarships may be defined as financial grants for which no equivalent work is required.

Each state is entitled to submit one girl and one boy application for the national scholarships. The two applications must be submitted by the state or regional scholarship chairperson to the American Angus Auxiliary Scholarship Chairperson. If your state does not have an Auxiliary State/Regional Scholarship Chair, a designated representative from the State/Regional Angus Association, or

the State Junior Angus Advisors should submit the completed application. Please contact the American Angus Auxiliary Scholarship Chair with questions.

All scholarship applicants are encouraged to attend the National Junior Angus Show in early July.

The scholarship application is the basis from which the candidates are chosen to compete for Miss American Angus. Each young lady submitting a scholarship application will be required to complete a form declaring her intent to compete/not compete for Miss American Angus if given the opportunity. The five highest placing ladies choosing to compete for Miss American Angus will be announced at the National Junior Show. These ladies will be required to attend the Miss American Angus contest held in November at the Angus Convention. The intent form and additional information on the role and requirements of Miss American Angus will be mailed to each female applicant AFTER her scholarship application is received. (Please note: choosing not to compete for Miss

American Angus does not affect scholarship eligibility.)

The application for the American Angus Auxiliary Scholarships is available online. Interested Junior Angus members may download the application, access directions and general information here. (See below). The post-mark for applications from the state contact is May 1. Additional questions about the American Angus Auxiliary scholarships can be directed to:

Karla Knapp, Scholarship Chair
22439 265th Street
Bloomfield, IA 52537
Phone: (641) 777-9887
Email: knappangus@gmail.com

The American Angus Auxiliary consists of individuals interested in the welfare of the Angus breed. Its members work to provide educational activities for junior Angus members, such as scholarship programs, awards, and competitions. To learn more about the American Angus Auxiliary, see what we do or see us in action.

Addison Cotton, York

I'm **ADDISON COTTON** from York, NE, and I've been a NeJAA member for ten years. Currently enrolled at Northeast Community College in Norfolk, I am pursuing Nursing and Animal Science. Starting with an Associate Degree in Nursing (ADN) at Northeast, I'll become a Registered Nurse, with plans to earn a Bachelor of Science in Nursing (BSN) from the University of Nebraska Medical Center. My deep empathy for others drives my nursing aspirations. Additionally, I intend to pursue an Associate of Applied Science (AAS) in Animal Science to learn progressive practices and enhance my Angus herd. While the combination of nursing and raising cattle may seem unconventional, I'm enthusiastic about turning my passions into a fulfilling career.

The Angus Industry has significantly influenced my personal growth. Actively involved in Nebraska's Junior Angus Association, I've held the positions of Membership and Communication Director, Second Vice President, and currently, I serve as NeJAA President. My participation in the Nebraska and National Junior Angus Association has been incredibly rewarding, shaping me into a confident and capable young woman. Through NeJAA, I've learned the importance of stepping up, serving others, and getting involved. My aim has been to ensure every member feels valued within our Angus community. Being an active contributor and leading by example, I believe my most meaningful impact has been fostering a sense of belonging among all NeJAA members. I've strived

2nd Place

JessaLynn Hudson, Belvidere

to make a positive impact through participation in contests, committees, and leadership, while building lasting relationships. My dedication to giving back to the Angus industry, which has already given me so much, remains strong. I plan to continue contributing through involvement, commitment, service, and support.

I am **JESSALYNN HUDSON** from Belvidere, Nebraska where I grew up on a farm and ranch operation. I have helped my family with their cow/calf operation for several years now and am fortunate enough to have a small herd of my own, which I plan to expand in the coming years after graduating from the University of Nebraska-Lincoln. I am currently majoring in Agricultural Business with minors in the Engler Agribusiness Entrepreneurship Program and the Krutsinger Beef Industry Scholars. I am also currently serving as the communications director for the Nebraska Junior Angus Association which has been an amazing opportunity for me to step up and be a leader within our association. I hope to continue expanding my leadership positions throughout the coming years in college and outside organizations as well. It has been an honor to serve as the 2023-2024 Nebraska Senior Beef Ambassador this past year as I have been able to advocate for something that I am so passionate about; the beef industry.

I attended my first Angus Junior National in 2016 in Grand Island, Nebraska while exhibiting a heifer, participating in the livestock judging contest, and skill-a-thon. Since then, I have attended junior nationals every

3rd Place

Kacey Dethlefs, Ravenna

year competing in numerous different events and competitions. I have been a two-time Black Kettle CAB Cook-Off winner with my teammates, as well as winning our cook-off divisions multiple times. It has been extremely enjoyable to participate in this contest with my teammates over the past years. I recently received my Angus bronze & silver awards which I am extremely excited about as this is the next step on my journey of broadening my knowledge and interactions within the Angus industry. I hope to continue attending Angus Junior Nationals, as well as our state events until I age out. After that, I hope to contribute to the industry in some form and potentially give back to the association after everything it has done for me. I also am grateful for supportive parents to allow me and my sister, TaraLee, to participate and be involved in such an amazing industry.

I am **KACEY DETHLEFS** a fourth generation Angus producer of Dethlefs Angus Ranch and am proud to say that Angus is in my blood. Growing up on a ranch taught me the grit and determination it takes to pursue what you are passionate about. Right now, I am strengthening that passion by majoring in Animal Science at the University of Nebraska-Lincoln with minors in Engler (Agribusiness Entrepreneurship) and the Beef Scholars program. However, I would not have realized where my passion lies if my roots did not run deep in the Angus industry. It was early on at my first National Junior Angus Show that I realized Angus is not just a breed, it's a family. As I was going through my

first time in a national show ring at the 2013 NJAS, I started having an asthma attack. My parents were wanting to get me out of the ring, but the judge wanted me to stay because he really liked my heifer. I will never forget when Richard Dyar, a regional manager at the time, came up to me and helped me finish showing. Richard and I still keep in touch to this day, but it does not end there. Because of my connections in the Angus industry, I was able to be a Talon Youth Intern this last summer at Blueprint Genetics in Wisconsin. I made connections and memories with Courtney Zehr and her family while also gaining knowledge in IVF reproduction in cattle. These are the relationships that will last a lifetime. It is through the Angus breed that I have cherished the best memories and want to keep making more. In the future, I plan to keep growing our Angus herd and being involved in the industry that has given me so much.

The
Nebraska
Angus
Association
offers this

scholarship to youth involved with the Angus breed through the contribution of a heifer donated by a current Nebraska Angus Association member. The drawing for the heifer takes place at the annual Nebraska Angus Tour. Raffle tickets are sold with all proceeds going to the scholarship fund. This program was started by George Marcy of Marcy Livestock. He wanted to work with the Nebraska Angus Association to start a program to pay it forward to our younger cattle producers. When he was young he had received a heifer from a raffle like this that helped him start his own herd. That is our hope with this program to help pay it forward to our younger generation.

MADISON, WI

AM I FULL OF CRAP?

Calf scours are not inevitable. A strong prevention program is non-negotiable. Dependable scour prevention is essential for calf welfare, employee morale and business profitability. The immune system's response to vaccination is variable and unpredictable. That's why giving preformed antibodies instead of relying on a vaccine to stimulate antibody production is so important. I'm all for removing uncertainties. So yes, I stand by this product. (And no, I'm not.)
